The final area which research into the relationship between gratitude and well-being is 'humanistic conceptions'. This research has found that gratitude is strongly and positively correlated with 'authentic' living and negatively correlated with self-alienation (Wood et al., 2010).

The Research on Gratitude and Its Link with Love and Happiness

It's therefore been noted that gratitude investigations depict a correlation between mental and physical health. In addition, gratitude fosters happiness, making it easier to cope with stress and...

The Relationship Between Happiness and Gratitude

Even though there is a great deal of research showing that being grateful plays an important role in maintaining one's quality of

life and well-being, the mechanisms of this relationship remain unclear. Therefore, the aim of the current study was to investigate the role of perceived stress and mental health in the relationship between dispositional gratitude and quality of life, both uniquely and in-sequence (a serial two-mediator model: gratitude-stress-mental health-quality of life ...

The relationship between dispositional gratitude and ...

As shown in Table 2, the negative correlation between loneliness and gratitude is confirmed and the other measures are associated accordingly with the theoretical framework: loneliness is negatively correlated with subjective happiness, life satisfaction and social desirability; while gratitude shows a positive association with them. However, the correlations are not so high to cause potential multicollinearity problems in regression analyses, thus indicating the presence of separate constructs.

The Relationship Between Gratitude and Loneliness: The

...

Gratitude reduces negative comparisons with others. When we express our gratitude to others, we strengthen our relationship with them. Gratitude reduces negative emotions like anger, envy, greed, and anxiety. Thanksgiving is much more than saying "Thank you" for a present or benefit we've received.
