Dimension-0 congruence is less conceptual and more experiential; it is sometimes captured by descriptions of a nondirective attitude that trusts the process (Brodley, 2005). Dimension-0 congruence is following the Tao, or path, of unconditionality towards raw experience. Dimension-0 congruence is perhaps best described with the word flow.

According to a central claim of Kornblum's dimensional-overlap model, response-related processes do not start before stimulus-related processes have been completed, which implies an additive relationship between effects of stimulus-stimulus congruence and stimulus-response compatibility. Three experiments were conducted to test this prediction.
