Common Formative Assessments 2.0 | SAGE Publications Ltd

In John Hattie's incredible research synthesis on Visible Learning, he described common formative assessment as: "Common formative assessments are designed to give students specific feedback on the clear target to be achieved, along with suggestions on how to reach that target on subsequent assessments. Students need to understand that this feedback will not be graded but that it will be used by their teachers to design specific instruction to help them improve."

Formative assessment moves can take many forms and generally target skills or content knowledge that is relatively narrow in scope (as opposed to summative assessments, which seek to assess broader sets of knowledge or skills). Common examples of formative assessments include exit tickets, fist-to-five check-ins, teacher-led question-and-answer sessions or games, completed graphic organizers, and practice quizzes.

Teachers' Essential Guide to Formative Assessment | Common ...

"Common formative assessments are team-designed, intentional measures used for the

purpose of monitoring student attainment of essential learning targets throughout the instructional process. In addition to providing information about which students need additional support or extension, common formative assessments allow teams to examine the effects of their practice, and gain insight as to which instructional strategies yield high levels of learning.

Common Formative

Assessments 2.0 | Corwin

About Formative and Summative Assessments in a Nutshell. Formative assessments aid in the learning process by sampling student learning and offering feedback that guides the instructional process. The primary goal with formative assessments is the feedback rather than any grade. They are useful for instructors as they permit instantaneous assessment of the acquisition of material and, as a result, offer opportunities for modifying the teaching plan in efforts to achieve learning objectives.
