The Motherland of Man

Lifting the Veil on the Lost Continent of Mu, the Motherland of Men *Ozark Mountain Publishing*

A re-issue of the 1926 classic by James Churchward, *The Lost Continent of Mu: Motherland of Men* supplemented with fresh research and new material by the author's great-grandson. In the 1920s, James Churchward wrote a series of groundbreaking books about the lost

continent of Lemuria which he called the land of Mu. The basic premises are these: • The Garden of Eden was not in Asia, but on a sunken continent in the Pacific Ocean. • The Biblical story of creation came not from the peoples of the Nile, but from this now submerged continent of Mu—the Motherland of Men. • Mu was an advanced civilization of 64 million inhabitants... He obtained the information by living with monks and translating unknown manuscripts. Over the years, his books have come to be considered occult classics. Now his great-grandson, Jack Churchward, has resurrected this valuable work and added his own research. Included: • *The Lost Continent* • *The Land of Man's Advent on Earth* • *Egyptian Sacred Volume, Book of the Dead* • *Symbols of*

The Lost Continent of Mu
Brotherhood of Life Books

Mu was an immense continent covering nearly one-half of the Pacific Ocean. When she sank during volcanic destruction, fifty million square miles of water claimed her place. This vast continent and culture was the center of civilization some 25,000 years ago. This is the story of Churchward's search for the lost continent, from the vaults of an Indian temple to the four corners of the world.

The Sacred Symbols of Mu *Cosimo, Inc.*

Occultist James Churchward was obsessed with the lost continent of Mu, home to the original human civilization, after learning of this mysterious and forgotten paradise from an Indian priest, who shared several ancient tablets written by the Naacals, the inhabitants of Mu. Or so Churchward claimed. Here, in this work first published in 1933, Churchward discusses his contention that all religions from across Earth share a common origin in Mu. In particular, he explores how symbols of Mu-gleaned, supposedly, from the ancient tablets-bear startling resemblances to everything from the Egyptian ankh and Chinese pictograms to Native American calendar glyphs. The reality of Mu aside,

students of comparative mythology and fans of esoterica will find this a fascinating book. British inventor, engineer, and author COLONEL JAMES CHURCHWARD (1851-1936), the elder brother of mystic author Albert Churchward, also wrote *The Lost Continent of Mu* (1926), *The Children of Mu* (1931), *The Lost Continent of Mu* (1931), *Cosmic Forces of Mu* (1934), and *Second Book of Cosmic Forces of Mu* (1935).

The Children of Mu

According to Churchward, the lost Pacific continent of Mu "extended from somewhere north of Hawaii to the south as far as the Fijis and Easter Island." He claimed Mu was the site of the Garden of Eden and the home of 64,000,000 inhabitants known as the Naacals. Its civilization, which flourished 50,000 years before Churchward's day, was technologically more advanced than his own, and the ancient civilizations of India, Babylon, Persia, Egypt and the Mayas were merely the decayed remnants of its colonies. In this, his

second book, first published in 1931, Churchward tells the story of the colonial expansion of Mu and the influence of the highly developed Mu culture on the rest of the world. Her first colonies were in North America and the Orient, while other colonies had been started in India, Egypt and Yucatan. Churchward claimed to have gained his knowledge from fragments of text written by the Naacals in a dead language taught to him by an Indian priest. Chapters include: The Origin of Man; The Eastern Lines; Ancient North America; Stone tablets from the Valley of Mexico; South America; Atlantis; Western Europe; The Greeks; Egypt; The Western Lines; India; Southern India; The Great Uighur Empire; Babylonia; Intimate Hours with the Rishi; more. A fascinating book on

the diffusion of mankind around the world--originating in a now lost continent in the Pacific! Tons of illustrations!

The Lost Continent of Pan

The Oceanic Civilization at the Origin of World Culture *Simon and Schuster*

Reveals the Pacific Ur-culture that seeded the ancient civilizations of China, Egypt, India, Mexico, and Peru • Shows how the Pan diaspora explains the similarities between Gobekli Tepe and Toltec carvings and stone towers in Japan and on Easter Island • Reveals the mother tongue of Pan hidden in shared word roots in vastly different languages, including Quechua, Sanskrit, Japanese, Greek, and Sumerian • Explains the red-

haired Caucasian mummies of China, the Ainu of Japan, the presence of “white” humans in early Native American legend, and other light-skinned peoples found in Southeast Asia and the Middle East. The destruction of the vast continent of Pan--also known as Lemuria or Mu--in the Pacific Ocean 24,000 years ago was the greatest catastrophe that ever befell humanity. Yet it resulted in a prehistoric Golden Age of arts and technology thanks to the Sons of Noah, who, forewarned and prepared for the disaster, escaped in 5 organized fleets. Theirs was the masterful Ur-culture that seeded China, Egypt, India, Mexico, and Peru, explaining the sudden injection of the same advanced knowledge and sophisticated arts into those widely separated lands. Examining the diaspora

from the sunken continent of Pan, Susan B. Martinez finds traces of the oceanic Pan civilization in arts and technologies from canal-works, masonry, and agriculture to writing, weaving, and pottery, but most importantly in the art of navigation, the hallmark of the survivors of the catastrophe. Using archaeo-linguistic analysis, she reveals the mother tongue of Pan hidden in strikingly similar words for royalty, deities, and important places in vastly different languages, including Quechua, Maori, Sanskrit, Japanese, Chinese, Greek, and Sumerian, as well as English through the prefix “pan” which denotes “all-encompassing.” The author reveals how the Pan diaspora explains the mound builders on each continent, the presence of “white” humans in Native

American legend, the red-haired mummies found in China, and the Ainu of Japan. She shares recent genetic studies that reveal Polynesian DNA in central Europeans, Mesopotamians, South Americans, and the 9000-year-old Kennewick man and shows how Pan provides the missing link. She reveals why carvings at Gobekli Tepe are similar to Toltec artistry, why stone towers in Japan and Easter Island are identical, and how the Pacific Ring of Fire was activated. Moving the Garden of Eden from the Fertile Crescent to the South Seas, Martinez strikes down the pervasive view of Atlantis as the source of ancient knowledge and exposes the original unity of mankind on the ancient Pacific continent of Pan.

Corto Maltese: Mu: the Lost Continent *IDW Publishing*

In this final entry of Hugo Pratt's epic

series, the master graphic novelist returns to the theme he first explored in the initial episode--the search for the lost continent of Mu, the mythical Atlantis. A premonition hovers over the entire dreamlike story, as if fate had decided in advance that this would be Corto Maltese's last adventure. The feeling is underscored by the return of most of the major characters seen throughout the long-running saga, like actors giving their final curtain call: Gold Mouth, Morgana, Tristan Bantam, Levi Colombia, Professor Steiner, "the Monk," Cain Groovesnore, Soledad, and (of course) Rasputin...each with their own reason to find the mythical realm. Thus, the circle closes. This EuroComics edition features new translations from Pratt's original Italian scripts by Dean Mullaney, the

Eisner and Harvey Award-winning editor of the Library of American Comics, and Simone Castaldi, Associate Professor of Romance Languages and Literatures at Hofstra, and the author of *Drawn and Dangerous: Italian Comics of the 1970s and 1980s* (University Press of Mississippi).

The Lost Civilization of Lemuria

The Rise and Fall of the World's Oldest Culture *Simon and Schuster*

A compelling new portrait of the lost realm of Lemuria, the original motherland of humanity • Contains the most extensive and up-to-date archaeological research on Lemuria • Reveals a lost, ancient technology in some respects more advanced than

modern science • Provides evidence that the perennial philosophies have their origin in Lemurian culture Before the Indonesian tsunami or Hurricane Katrina's destruction of New Orleans, there was the destruction of Lemuria. Oral tradition in Polynesia recounts the story of a splendid kingdom that was carried to the bottom of the sea by a mighty "warrior wave"--a tsunami. This lost realm has been cited in numerous other indigenous traditions, spanning the globe from Australia to Asia to the coasts of both South and North America. It was known as Lemuria or Mu, a vast realm of islands and archipelagoes that once sprawled across the Pacific Ocean. Relying on 10 years of research and extensive travel, Frank Joseph offers a compelling picture of this motherland of

humanity, which he suggests was the original Garden of Eden. Using recent deep-sea archaeological finds, enigmatic glyphs and symbols, and ancient records shared by cultures divided by great distances that document the story of this sunken world, Joseph painstakingly re-creates a picture of this civilization in which people lived in rare harmony and possessed a sophisticated technology that allowed them to harness the weather, defy gravity, and conduct genetic investigations far beyond what is possible today. When disaster struck Lemuria, the survivors made their way to other parts of the world, incorporating their scientific and mystical skills into the existing cultures of Asia, Polynesia, and the Americas. Totem poles of the Pacific Northwest, architecture in China,

the colossal stone statues on Easter Island, and even the perennial philosophies all reveal their kinship to this now-vanished civilization.

"My purpose was to comply with the desires of the publishers in preparing and presenting an easily readable, enjoyable, and fascinating account of the lost Continent of Lemuria, with all of its past history, effects upon the races of man, and ancient, human incidents of life.(...) I hope, therefore, that this book will make the subject more popular and arouse further interest in the investigation of the hundreds of available sources of information still

untouched by those who have spent their lifetime seeking for positive facts. With this hope and with the further desire that what I have written may contribute to a better understanding of the development of the human individual in all of his physical, mental, spiritual, and so-called psychic qualities, I offer this work." Revival: Origin and Evolution of the Human Race (1921) *Routledge*

Where and when did man make his first appearance on this earth? The object of this book is to bring before the public such further facts and values regarding the evolution of man. After studies Churchwood made during many years, he is now fully convinced that the hitherto preconceived ideas of many

scientists regarding the origin of the human race, both as to place and date, are erroneous, and evidence will be brought forward to prove that the human race did not originate in Asia, but in Africa.

The Last Continent

(Discworld Novel 22) *Random House*

A beautiful hardback edition of the classic Discworld novel 'Anything you do in the past changes the future. The tiniest little actions have huge consequences. You might tread on an ant now and it might entirely prevent someone from being born in the future.' There's nothing like the issue of evolution to get under the skin of academics. Even if their field of

expertise is magic rather than biology. With the best and most interfering minds of Unseen University somehow left in charge at a critical evolutionary turning point, the Discworld's last continent needs a saviour... Who is this hero striding across the red desert? Sheep shearer, beer drinker, bush ranger, and someone who'll even eat a Meat Pie Floater when he's sober. In fact, it's Rincewind, a wizard so inept he can't even spell wizard. He's the only hero left. Still...no worries, eh?

Cosmic Forces of Mu *Pickle Partners Publishing*

AT THE time of my parting with the Rishi,

after seven years of study under him, and when I thought I knew it all, he, placing his hand on my shoulder said: 'Go forth, my son, into nature's schoolhouse and learn, for at present you know nothing except how to learn. Every old rock with its wrinkled and gnarled face is speaking a tale of the past if you will but listen, every leaf on tree or bush and every flower and blade of grass growing out of the ground, has a whisper for listening ears. Nature is the great schoolhouse of knowledge, from which man is taught. Nature is God speaking.' In my previous books I endeavored to show the high state attained by the Earth's First Civilization, the state they had arrived at after 200,000 years of study and experience: and, how man then learnt his lessons

from nature, a study which brought him into a closer touch with his Heavenly Father. I showed that his sciences were mere copies of nature. Even his geometry and geometrical figures were taken from flowers. He carried these flower symbols into his art so that, today, we find his ancient statuary and structures based on regular, progressive, geometrical lines. The same geometrical figures were used in explaining and teaching religion. In this work I have tried to show the ancient sciences in their grander and more sublime form, taking a step nearer to the Creator himself. Yet told in childlike simplicity, as was the custom of the ancients, unencumbered with technology and hard words to understand.—James Churchward

This carefully crafted ebook: “THE ATLANTIS COLLECTION - 6 Books About The Mythical Lost World: Plato's Original Myth + The Lost Continent + The Story

of Atlantis + The Antedeluvian World + New Atlantis” is formatted for your eReader with a functional and detailed table of contents: The Original Myth of Atlantis (Plato) Timaeus Critias New Atlantis (Francis Bacon) Atlantis: The Antedeluvian World (Ignatius Donnelly) The Lost Continent (C. J. Cutcliffe Hyne) The Story of Atlantis (William Scott-Elliot) Atlantis ("island of Atlas") is a mystical island mentioned within an allegory on the hubris of nations in Plato's works Timaeus and Critias, where it represents the antagonist naval power that besieges "Ancient Athens". Plato's indications of the time of the events—more than 9,000 years before his day, and the alleged location of Atlantis—"beyond the Pillars of Hercules", has led to much scientific

speculation. As a consequence, Atlantis has become a byword for any and all supposed advanced prehistoric lost civilizations. At the end of the story, Atlantis eventually falls out of favor with the gods and famously submerges into the Atlantic Ocean. Despite its secondary importance in Plato's work, the Atlantis story has had a considerable impact on literature. The allegorical aspect of Atlantis was taken up in utopian works of several Renaissance writers, such as Francis Bacon's New Atlantis. On the other hand, 19th-century scholars interpreted Plato's account as historical tradition, most notably in Ignatius L. Donnelly's Atlantis: The Antediluvian World. Many of his theories are the source of many modern-day concepts about Atlantis, including these:

the civilization and technology beyond its time, the origins of all present races and civilizations, and a civil war between good and evil. Much of Donnelly's scholarship, especially with regard to Atlantis as an explanation for similarities between ancient civilizations of the Old and New Worlds.

The Sacred Symbols of Mu *CreateSpace*

Mu, as a lost Pacific Ocean continent, was later popularized by James Churchward (1851-1936) in a series of books, beginning with Lost Continent of

Mu, the Motherland of Man (1926), re-edited later as The Lost Continent Mu (1931). Other popular books in the series are The Children of Mu (1931), and The Sacred Symbols of Mu (1933). Churchward claimed that "more than fifty years ago," while he was a soldier in India, he befriended a high-ranking temple priest who showed him a set of ancient "sunburnt" clay tablets, supposedly in a long lost "Naga-Maya language" which only two other people in India could read. Having mastered the language himself, Churchward found out that they originated from "the place where [man] first appeared-Mu." The 1931 edition states that "all matter of science in this work are based on translations of two sets of ancient tablets: " the clay tables he read in India,

and a collection 2,500 stone tablets that had been uncovered by William Niven in Mexico. p. 7 Churchward gave a vivid description of Mu as the home of an advanced civilization, the Naacal, which flourished between 50,000 and 12,000 years ago, was dominated by a "white race," p. 48 and was "superior in many respects to our own" p. 17 At the time of its demise, about 12,000 years ago, Mu had 64,000,000 inhabitants and many large cities, and colonies in the other continents. Churchward claimed that the landmass of Mu was located in the Pacific Ocean, and stretched east-west from the Marianas to Easter Island, and north-south from Hawaii to Mangaia. He claimed that according to the creation myth he read in the Indian tablets, Mu had been lifted above sea level by the

expansion of underground volcanic gases. Eventually Mu "was completely obliterated in almost a single night" p. 44: after a series of earthquakes and volcanic eruptions, "the broken land fell into that great abyss of fire" and was covered by "fifty millions of square miles of water." p. 50 Churchward claimed that Mu was the common origin of the great civilizations of Egypt, Greece, Central America, India, Burma and others, including Easter Island, and was in particular the source of ancient megalithic architecture. As evidence for his claims, he pointed to symbols from throughout the world, in which he saw common themes of birds, the relation of the Earth and the sky, and especially the Sun. Churchward claims the king of Mu was Ra and he relates this to the

Egyptian god of the sun, Ra, and the Rapanui word for Sun, ra'a, which he incorrectly spells "raa." [8]: p. 48 He claimed to have found symbols of the Sun in "Egypt, Babylonia, Peru and all ancient lands and countries - it was a universal symbol." [8]: p. 138 Churchward attributed all megalithic art in Polynesia to the people of Mu. He claimed that symbols of the sun are found "depicted on stones of Polynesian ruins," such as the stone hats (pukao) on top of the giant moai statues of Easter Island. Citing W.J. Johnson, Churchward describes the cylindrical hats as "spheres" that "seem to show red in the distance," and asserts that they "represent the Sun as Ra." p. 138 He also incorrectly claimed that some of them are made of "red sandstone" [8]: p.

89 which does not occur in the island. The platforms on which the statues rest (ahu) are described by Churchward as being "platform-like accumulations of cut and dressed stone," which were supposedly left in their current positions "awaiting shipment to some other part of the continent for the building of temples and palaces." p. 89 He also cites the pillars "erected by the Maori of New Zealand" as an example of this lost civilization's handiwork.: p. 158 In Churchward's view, the present-day Polynesians are not descendants of the dominant members of the lost civilization of Mu, responsible for these great works, but survivors of the cataclysm that adopted "the first cannibalism and savagery" in the world.

Liber 51

The Lost Continent: By Aleister Crowley *Createspace Independent Publishing Platform*

Aleister Crowley's, "The Lost Continent," (Liber 51), purports to be a history of the lost continent of Atlantis but is more of a subtly hilarious satire on Crowley's contemporary British society. In this short work the author manages to lampoon British social structure, politics, marriage, religion, education, child-rearing, sexual relations. Crowley has also inserted small jewels of Occult Knowledge which shine brightly to those who can discern them. The best description of Liber 51 comes from the author himself: ..".at times, it is a fantastic rhapsody describing my ideals

of Utopian society; some passages are a satire on the conditions of our civilization, while others convey hints of certain, profound magical secrets, or anticipations of discoveries in science." (From Aleister Crowley's Confessions...) Liber LI is an exceptional example of the Literary Craft. This nicely designed edition is illustrated with Crowley's own Paintings.

In Search of Lemuria

The Lost Pacific Continent in Legend, Myth and Imagination

The lost continent of Lemuria, the land of Mu, is a place that history has nearly forgotten. Yet it lives on in the mythology of Hindus and Australian Aborigines, Polynesians and American Indians. Its place is likewise secure beside Atlantis in the metaphysical

speculations of Occult pioneers Madame Blavatsky and Edgar Cayce, as well as New Age channelers and soothsayers.

Light in Dark Times

The Human Search for Meaning *University of Toronto Press*

What will become of us in these trying times? How will we pass the time that we have on earth? In gorgeously rendered graphic form, *Light in Dark Times* invites readers to consider these questions by exploring the political catastrophes and moral disasters of the past and present, revealing issues that beg to be studied, understood, confronted, and resisted. A profound work of anthropology and art, this book is for anyone yearning to understand the

darkness and hoping to hold onto the light. It is a powerful story of encounters with writers, philosophers, activists, and anthropologists whose words are as meaningful today as they were during the times in which they were written. This book is at once a lament over the darkness of our times, an affirmation of the value of knowledge and introspection, and a consideration of truth, lies, and the dangers of the trivial. In a time when many of us struggle with the feeling that we cannot do enough to change the course of the future, this book is a call to action, asking us to envision and create an alternative world from the one in which we now live. Light in Dark Times is beautiful to look at and to hold – an exquisite work of art that is lively, informative, enlightening, deeply

moving, and inspiring.

Atlantis 2021 - Lost Continent Discovered *Independently Published*

Nan Madol is probably the most mysterious ancient city in the world. Despite being more than 1.5 km long, the ruins of this city are located on a small island in the middle of the Pacific Ocean. Where is the rest of the country? Inexplicably, some of its walls begin at the bottom of the sea. How is that possible? Thousands of kilometres away, in the northern Sahara, a Japanese satellite identified the remains of a gigantic river, now dried up, which cut through a whole chunk of Morocco, turning it into a quasi-island. That island is exactly where Plato said Atlantis was. What is the connection between Nan Madol, "the island" in the Sahara near the Strait of Gibraltar, and Atlantis? In

this book we give you the answer.
