The Honda NT700V
Deauville has a 680cc,
liquid cooled engine.

You may think this is a bit too little for a touring bike. But as we have said before, this is not completely a touring bike (at least not long distance touring). The engine livens up once you pull 3500 rpm on the throttle but do not expect the bike to cruise like a true touring bike. Speed is not this bike's forte.
