Financial Accounting Theory presents financial accounting as a means to resolve problems of asymmetric information and to facilitate contracting. It develops ideas from decision theory and information economics to emphasize that accounting serves important purposes in society, of enhancing trust and meeting information needs.

Financial Accounting: Tools for Business Decision Making ...

There are nice flowcharts in this book and although in ACG2021 you only focus on accrual accounting versus cash basis, it's still very relevant. Sure, some of the paper forms they discuss and methods of thinking about accounting are taken care of automatically by Quickbooks, but if you're looking for exposure to the standard college financial accounting class, this is a good choice.
