Global Food Systems, Diets, and Nutrition

Linking Science, Economics, and Policy *Springer Nature*

Ensuring optimal diets and nutrition for the global population is a grand challenge fraught with many contentious issues. To achieve food security for all and protect health, we need functional, equitable, and sustainable food systems. Food systems are highly complex networks of individuals and institutions that depend on governance and policy leadership. This book explains how interconnected food systems and policies affect diets and nutrition in high-, middle-, and low-income countries. In tandem with food policy, food systems determine the availability, affordability,

and nutritional quality of the food supply, which influences the diets that people are willing and able to consume. Readers will become familiar with both domestic and international food policy processes and actors, and they will be able to critically analyze and debate how policy and science affect diet and nutrition outcomes.

Daily Drawing 365 Things to Draw

Beginners Drawing Books - Practice How to Draw

Cultivate a daily drawing practice Draw 365 images this coming year and create a daily drawing practice. Improve visualization, coordination, grow new pathways in the brain, improve analytical skills, concentration, communication and develop an "eye" In this graph paper drawing notebook you will find 365 images to draw, one for

each day of the year. Focus on the lines in each square of the graph and simply draw one box at a time until you have created the full image. This creates an eye for detail and takes away any intimidation you may have when seeing objects as a whole, break it down and start there. No need to think about what to sketch every day simply focus on what is in each square and reproduce it. Don't put off your drawing time, put in the practice and become the artist you know you can be.
