There are many active learning strategies including learning through play, group work, activity-based learning, and project work, but what they all have in common is that learning is centred

around the learner, rather than the teacher. Rather than just listening to the teacher, pupils develop their thinking abilities by doing or saying something to direct their learning. This may be something you do already, something you've done a lot more of in your online lessons or might be something ...

200+ Active Learning Strategies and Projects for Engaging ...

In higher education's 'new normal,' learning and teaching don't necessarily occur at the same time. Thus, active learning strategies help students engage in self-instruction at a pace that suits their needs. Here are eight practical examples of active learning activities for students in an online, hybrid of face-to-face classroom. 1.
