CHEM 110 - Introduction to Chemistry

This course introduces the general concepts of chemistry, including atomic structure, nomenclature, chemical reactions, stoichiometry and calculations, chemical bonding, liquids, solids and solutions, kinetics, and equilibrium. There is no laboratory component to this course.

CHEM 110 - Introduction to Chemistry - Coquitlam College

When you study chemistry, you should not view this as some type of a chore that the school system is forcing you through. There are people who would've done anything 100 years ago to get the

answers that are in your chemistry book today or that you can learn from your chemistry teacher or that you can learn from a Khan Academy video.
