Basically what I want is to launch a turn-by-turn navigator from

my application. The thing is I don't know which (if any) navigator is installed. So, the question is how to start an intent by showing a list of suitable activities for navigation to the user first, letting him choose which one he would like to use?

android - Intent to start a navigation activity - Stack ...

Navit is a car navigation system with routing engine. Navit's modular design is capable of using vector maps of various formats for routing and rendering on the screen. It's even possible to use multiple maps at the same time. The GTK+ or SDL user interfaces are designed to work well with touch screen displays.
