This is a revised and redesigned second
edition of McMinn's "A Colour Atlas of
Human Anatomy", first published in
1977. This edition retains many of the
original features - all structures are life-
size, and the work contains not only
dissections but bones, surface anatomy
and radiographic material from the skull
to the feet, including the brain.

This atlas features outstanding full-color
photographs of actual cadaver
dissections, with accompanying
schematic drawings and diagnostic
images. The photographs depict
anatomic structures more realistically
than illustrations in traditional atlases
and show students exactly what they will
see in the dissection lab.
