Thompson/Strickland has always included the most recent research in strategy in a way that students can understand and apply it to business cases and problems. In addition, Thompson offers more coverage of strategy implementation than most other texts, which many instructors think is critical if students are to understand the how and not just the what and why. Thompson's coverage of Michael Porter's classic 5-forces model is clearer and more detailed than in other texts, according to reviewers. With this edition the market leader looks better than ever before, offering a new 4-color design, improved writing style, and two new chapters on global and e-commerce strategy. The Thompson and Strickland cases have always been another strong selling point. Over the years, this author team has developed a great network of case authors and is able to select from the cream of the crop. And, having taught the course themselves for many years, they are very experienced in selecting the types of cases that will spark student interest and generate lively classroom discussions. Many of the cases reflect high profile companies, products, and people that students will have heard of, know about from personal experience, or can easily identify with. The new case line-up features an exciting collection of dot.com/New Economy companies such as America Online, WingspanBank.com, drkoop.com, Intel, EBay, CDNow, Dell, and Competition in the Electronic Brokerage industry. Cases are further selected to highlight other critical types of business and trends, such as non-U.S. companies, globalization, cross-cultural situations, relatively small, entrepreneurial firms, non-profit organizations, and more.

"Why does the world need another strategy textbook? The answer is that we simply have not been able to find a textbook that we felt fully met the needs of our students. What are those needs? First, we wanted to write a textbook that would engage students' interest using numerous practical examples and tools that would help them actually do analysis to answer key strategic questions. For

example, leading firms and strategy consulting firms have tools to teach strategists how to actually conduct a "5 Forces" analysis, calculate a scale or experience curve, or conduct a net promoter score analysis. We wanted to provide those tools. We also wanted to create interactive learning tools that would connect with a new generation of learners"--

Strategic Management *SAGE*

The 9th edition of this comprehensive core textbook builds on its global perspective and approachable written style, as it explores the key concepts within a clear and logical structure. Lynch guides you through 19 chapters, with updated case studies and pedagogy that support the modern business and management student from start to finish. Continuous contrast between prescriptive and emergent views of strategy highlights key debates within the discipline, whilst an emphasis on the practical throughout the book helps you turn theory into practice
