3Principles of Proper IDT Documentation

General Inpatient (GIP) Care is one of the four levels of care available to patients who elect the Medicare Hospice Benefit. GIP level of care is appropriate when the patient's medical condition warrants a short-term inpatient stay for pain control or acute or chronic symptom management that cannot feasibly be provided in other settings.

Required Hospice GIP Documentation - Home Care & Hospice ...

Good hospice care also requires open communication among team members, not just for evaluating patient care but also for helping the staff cope with their own feelings. Recent studies have identified barriers to end-of-life care including patient or family member's avoidance of death, the influence of managed care on end-of-life care, and lack of continuity of care across settings.
