A typical timing belt
will only cost between
\$25 and \$50, but the
repair takes at least a
few hours. The labor
cost to replace a timing
belt can range from
\$200 - \$900. Timing
belt replacement
should be conducted
by a professional
mechanic as it is an
advanced project that
requires one to

disassemble the
engine to be able to
remove the old belt.

**The Complete
Timing Belt
Replacement Cost
Guide**

Timing belts require
more maintenance
than timing chains and
need to be replaced
every 60,000 to 90,000
miles. Failure to
replace your timing
belt could result in belt
failure, and in some
cases, catastrophic
damage to your
engine.

recommend that you
replace your timing
belt every 60,000 miles
- or 5 years. Replacing
a timing belt - or
cambelt as it's also
known - is made easier

with a timing belt kit. This kit provides you with all the necessary components to repair a timing belt.
