An Introduction to Trading. Financial Spread Betting (or Trading) offers a tax free method of speculating on financial markets.

Quite simply, if you think a particular index, share, commodity, currency or sector will rise, you place an UP bet. This also referred to as a Long position or a buy.

Financial Spread Trading - Introduction

- Spread order entry enables you to enter or exit a trade using an actual spread order, or by independently entering each leg of the spread (legging in/out).
- Spreads are one of the few ways to obtain decent fills by legging in/out during the Close of a market.
