Pentaho Reporting 3.5 for Java Developers - Pentaho ...

Pentaho Reporting allows users to create data sources in languages other than Java, via the Apache Bean Scripting Framework, suggesting that my old Jython code might work mostly unchanged via Bean Scripting. Disappointingly, the book doesn't give an example of this technique, but since the Bean Scripting integration is still considered experimental (along with, apparently, several other data source types, contributed by the Pentaho community).

Pentaho Reporting 3.5 for Java Developers | End Point

This book is primarily written for Java developers who want to assemble custom reporting solutions with Pentaho Reporting. Their main interest is in the technical details of creating reports and they want to see how to solve common report problems with a minimum of fuss; they do not need an overview of BI or the importance of reporting.
