Interior Design And Interior Architecture

Interior architecture is a practice that incorporates the art of design and the science of architecture, and it focuses on the technical aspects of planning and building a room. This field involves making the room safe and functional as well as designing aesthetically appealing lighting, color and texture for a space.

Interior Architecture vs. Interior Design: What's the ...

The major difference between interior architecture and interior design is that

all architects must have a license to call themselves architects, and to practice architecture. Interior design is more about aesthetics. Interior design is a profession that focuses on architecture and space planning, creating cohesive and aesthetically pleasing designs for home interior and businesses within a built environment or existing structures.

Interior Architecture vs. Interior Design: Explore the ...

An interior architecture course is a hybrid field of study, bringing interior design and architecture together in a single discipline. It takes a good knowledge of building regulations, and an understanding of the structure of buildings, in order to make projects safe, habitable, and functional.

Interior Architecture vs Interior Design: What are the ...

The interior design industry has been trying to indicate the difference between an interior designer and decorator for years and picked up the architecture name to try and do so, but the true Interior Designer is educated in interior design and architecture and usually taught by architects.
