Introduction to Accounting (2020) - YouTube

Introduction to Accounting. Accounting is the language of business. It is the system of recording, summarizing, and analyzing an economic entity's financial transactions. Effectively communicating this information is key to the success of every business. Those who rely on financial information include internal users, such as a company's managers and employees, and

external users, such as banks, investors, governmental agencies, financial analysts, and labor unions.

Introduction to Accounting

Accounting is the process of identifying, measuring, recording, and communicating an organization's economic activities to users. Users need information for decision making.

Internal users of accounting information work for the organization and are responsible for planning, organizing, and operating the entity.
