The Quilt in the Short Story "Everyday Use" by Alice Walker as a Symbol for the Appreciation of the Heritage of African-American People *GRIN Verlag*

Essay from the year 2017 in the subject English Language and Literature Studies - Literature, grade: -, Bielefeld University (Fakultät für Linguistik und Literaturwissenschaft), language: English, abstract: This essay deals with the short story “Everyday Use” by Alice Walker, which was first published in 1973 as a part of the short story collection “In Love and Trouble”. The short story contains many symbols, one of them a handmade quilt, which the two sisters Maggie and Dee (or “Wangero”, as she calls herself) both want to have, but for different reasons. In this essay I am going to show that the handmade quilt as a family heritage both symbolises the appreciation of the

history of the family and the history of the African-American people. I will also argue that the two sisters, who both want to have the quilt, represent different ideas of how to appreciate the family's heritage and their origin: While Maggie sees the quilt as an everyday object and wants to maintain the traditions, Dee wants to keep it as a piece of art to depict it as an artefact of a past life, which is no longer reality for her and the African-American people.

The Concept of Heritage in Alice Walker's *Everyday Use* GRIN Verlag

Seminar paper from the year 2001 in the subject American Studies - Literature, grade: 1 (A), University of Würzburg (Institute for Anglistics/ American Studies), course: American Female Writers, 10 entries in the bibliography, language: English, abstract: Introduction Alice Walker's short story "Everyday Use", from the collection *In Love and Trouble* published in 1973, was written during the heyday of the Black Power movement, when African Americans were trying to reach more than mere racial equality and insisted on self-determination and racial dignity. The tracing of ancestral African roots, the slogan *Black is Beautiful*, and the Afro hair style arose. African American short stories of this period were often concerned with problematic issues of integration, separation, redefinition of the past, distant African heritage, and immediate family history. In "Everyday Use", the contrast between two sisters and the domestic struggle over old handmade quilts reveal the use and misuse of the concept of heritage and different attitudes towards one's familiar traditions and cultural background. Alice Walker not only explores a disturbed intrafamily relationship between three black women of the South, but represents a severe conflict within America's black society, where new radical views and misperceptions of the word heritage collide with traditional black rural life style. A singular general meaning of the term heritage does not exist. Dictionaries mostly carry several definitions. For example, the *Reader's Digest Illustrated Encyclopedic Dictionary* gives the following two

entries: 1. Property that is or can be inherited; an inheritance. 2. Something other than property passed down from preceding generations; a legacy; a tradition. (Rattray 789) [...]

Atlas Shrugged *Penguin*

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's *The Great American Read*. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those

who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. *Atlas Shrugged*, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

The Function of Tradition in "Everyday Use" by Alice Walker and "Yellow Woman" by Leslie Marmon Silko *GRIN Verlag*

Seminar paper from the year 2000 in the subject American Studies - Literature, grade: 1,3, University of Dusseldorf "Heinrich Heine", 20 entries in the bibliography, language: English, abstract: Tradition is a simple and abstract word, but it contains a vast amount of important connotations, among them culture, identity,

knowledge, advice and emotions. I have chosen the field of African American tradition and Native American tradition to present different views on tradition and tradition awareness. To give a more detailed and concrete analysis I will use the short stories "Everyday Use" by Alice Walker and "Yellow Woman" by Leslie Marmon Silko. In "Everyday Use" I will mainly point out what tradition means to the characters Dee, Maggie and Mrs. Johnson. With the help of the story, I will prove both the antagonistic relationship and the parallels between Dee on the one side and Mrs. Johnson and Maggie on the other. Then I will focus on the importance of the traditional quilting and the conflicts it brings up among the family members. The short story "Yellow Woman" includes important aspects of the Native American culture such as the Trickster figure or the element of oral narration. So I will present the character Silva as a Trickster figure and describe the importance of oral tradition. Then I will continue with the protagonist's inner conflicts concerning her identity. The last chapter concludes by comparing the attitudes of the shortstories' characters and gives perspectives.

Potential Images

Ambiguity and Indeterminacy in Modern Art *Reaktion Books*

In Potential Images Dario Gamboni explores ambiguity in modern art, considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect. Ambiguity became increasingly important in late 19th- and early 20th-century aesthetics, as is evidenced in works by such artists as Redon, Cezanne, Gauguin, Ensor and the Nabis. Similarly, the Cubists subverted

traditional representational conventions, requiring their viewers to decipher images to extract their full meanings. The same device was taken up in the various experiments leading to abstraction. For example, it was Kandinsky's intention that his work could be interpreted in both figurative and non-figurative ways, and Duchamp's Readymades suggested the radical conclusion that 'it is the beholder who makes the picture'. These invitations to viewers to participate in the process of artistic communication had social and political implications, as they accorded artist and beholder symmetrical, almost interchangeable, roles.

Japanese and Western Bioethics

Studies in Moral Diversity *Springer Science & Business Media*

The editors of the Philosophy and Medicine series recognize with gratitude the foresight, understanding, hard labor, and patience of Prof. Kazumasa Hoshino. It is his perseverance that has made this volume a reality. It was his faith in ideas that brought together a cluster of scholars in Tokyo on September 2-4, 1994, at Sophia University for a U. S. -Japan Bioethics Congress. With the support of the Foundation for Advancement of International Science, the Japan Foundation Center for Global Partnership, the Foundation of Thanatology, the Japanese Center for Quality of Life Studies, and Sophia University, scholars from Canada, Germany, Japan, and the United States were able to explore the differences and similarities in their approaches to bioethics and health care policy. That conference first produced a volume through Shibunkaku Publishers of Kyoto that appeared in 1995 in Japanese: The

Dignity of Death, edited by Kazumasa Hoshino. Selections from those materials have been reworked for an English audience and now appear, along with new essays, in this volume. The field of comparative bioethics is only in its infancy. We are deeply grateful to Prof. Kazumasa Hoshino, one of the fathers of Japanese bioethics, for having made this volume possible. H. Cultural Trauma's Influence on Representations of African American Identity in Alice Walker's "Everyday Use"

This analysis employs Ron Eyerman's Cultural Trauma: Slavery and the Formation of African American Identity as a conceptual lens to analyze representations of African American identity in Alice Walker's "Everyday Use." In Cultural Trauma, Eyerman implements two narrative frames, the tragic/redemptive and progressive, to explore how cultural trauma has influenced the identity formation of generations of African Americans from Reconstruction to the present. This literary analysis uses those narrative frames to investigate why the characters in "Everyday Use" form conflicting cultural identities and interpretations of heritage despite sharing racial and ethnic ties. Moreover, this study reveals that the contrasting representations of African American identity presented by the characters in "Everyday Use" are a result of the variance within the tragic/redemptive and progressive, narrative frames that shaped their respective worldviews. The fundamental differences between the progressive and tragic/redemptive frames lies in how they regard the African and the American, and how they interpreted the meaning of slavery. By examining "Everyday Use's" characters in the context of cultural trauma, this piece presents a balanced interpretation of the opposing two energies in "Everyday Use." Particularly, instead of offering a

one-sided interpretation of the characters, as other critics have, this analysis focuses on the complexities within the diverse representations of African American identity presented in the story.

British Genres

Cinema and Society, 1930-1960 *Princeton University Press*

In this unprecedented survey of British cinema from the 1930s to the New Wave of the 1960s, Marcia Landy explores how cinematic representation and social history converge. Landy focuses on the genre film, a product of British mass culture often dismissed by critics as "unrealistic," showing that in England

such cinema subtly dramatized unresolved cultural conflicts and was, in fact, more popular than critics have claimed. Her discussion covers hundreds of works--including historical films, films of empire, war films, melodrama, comedy, science-fiction, horror, and social problem films--and reveals their relation to changing attitudes toward class, race, national identity, sexuality, and gender. Landy begins by describing the status and value of genre theory, then provides a history of British film production that illuminates the politics and personalities connected with the major studios. In vivid accounts of the films within each genre, she analyzes styles, codes, and conventions to show how the films negotiate history, fantasy, and lived experience. Throughout Landy creates a dynamic sense of genre and of how the genres shape, not merely reflect, cultural conflicts. Originally published in 1991. Thinking it Through

A Practical Guide to Academic Essay Writing *Peterborough, Ont. : Academic Skills Centre, Trent University*

Yellow Woman *Rutgers University Press*

In the past twenty-five years many Native American writers have retold the traditional stories of powerful mythological women: Corn Woman, Changing Woman, Serpent Woman, and Thought Woman, who with her sisters created all life by thinking it into being. Within and in response to these evolving traditions, Leslie Marmon Silko takes from her own tradition, the Keres of Laguna, the Yellow Woman. Yellow Woman stories, always female-centered and always from the Yellow Woman's point of view, portray a figure who is adventurous, strong, and often alienated from her own people. She is the spirit of woman. Ambiguous and unsettling, Silko's "Yellow Woman" explores one woman's desires and changes--her need to open herself to a richer sensuality. Walking away from her everyday identity as daughter, wife and mother, she takes possession of transgressive feelings and desires by recognizing them in the stories she has heard, by blurring the boundaries between herself and the Yellow Woman of myth. Silko's decision to tell the story from the narrator's point of view is traditional, but her use of first person narration and the story's much raised ambiguity brilliantly reinforce her themes. Like traditional yellow women, the narrator is unnamed. By choosing not to reveal her name, she claims the role of Yellow Woman, and Yellow Woman's story is the one Silko clearly claims as her own. The essays in this collection compare Silko's many retellings of Yellow Woman stories from a variety of angles, looking at crucial

themes like storytelling, cultural inheritances, memory, continuity, identity, interconnectedness, ritual, and tradition. This casebook includes an introduction by the editor, a chronology, an authoritative text of the story itself, critical essays, and a bibliography for further reading in both primary and secondary sources. Contributors include Kim Barnes, A. LaVonne Ruoff, Paula Gunn Allen, Patricia Clark Smith, Bernard A. Hirsch, Arnold Krupat, Linda Danielson, and Patricia Jones.

Winner of the Pulitzer Prize and the National Book Award, this novel about a resilient and courageous woman has become a Broadway show and a cultural phenomenon. A PBS Great American Read Top 100 Pick Celie has grown up poor in rural Georgia, despised by the society around her and abused by her own family. She strives to protect her sister, Nettie, from a similar fate, and while Nettie escapes to a new life as a missionary in Africa, Celie is left behind without her best friend and confidante, married off to an older suitor, and sentenced to a life alone with a harsh and brutal husband. In an attempt to transcend a life that often seems too much to bear, Celie begins writing letters directly to God. The letters, spanning twenty years, record a journey of self-discovery and empowerment guided by the light of a few strong women. She meets Shug Avery, her husband's mistress and a jazz singer with a zest for life, and her stepson's wife, Sophia, who challenges her to fight

for independence. And though the many letters from Celie's sister are hidden by her husband, Nettie's unwavering support will prove to be the most breathtaking of all. The *Color Purple* has sold more than five million copies, inspired an Academy Award-nominated film starring Oprah Winfrey and directed by Steven Spielberg, and been adapted into a Tony-nominated Broadway musical.
