What Is A Case Study

In the social and life sciences, a case study is a research method involving an up-close, in-depth, and detailed examination of a particular case. For example, a case study in medicine may examine a specific patient a doctor treated, and a case study in business might study a particular firm's strategy.

Case study - Wikipedia

A case study is a detailed study of a specific subject, such as a person, group, place, event, organization, or phenomenon. Case studies are commonly used in social, educational, clinical, and business research. A case study research design usually involves qualitative methods, but

quantitative methods are sometimes also used.

How to Do a Case Study | Examples and Methods

Definition of case study. 1 : an intensive analysis of an individual unit (such as a person or community) stressing developmental factors in relation to environment. 2 : case history.

Case Study | Definition of Case Study by Merriam-Webster

Case study is a research methodology, typically seen in social and life sciences. There is no one definition of case study research. 1 However, very simply... 'a case study can be defined as an intensive study about a person, a group of people or a unit, which is aimed to generalize over several units'. 1 A case study has also been described as an intensive, systematic investigation of a single individual, group, community or some other unit in which the researcher examines in-depth data ...

What is a case study? | Evidence-Based Nursing

Case studies are the case in education process that most often makes students seek immediate help. No pun intended but the task is one of the most challenging because it gets really close to real life situations and so requires more work than just paraphrasing textbook ideas.

Case Study: Basic Guide for Students (with Examples)

In social studies, the case study is a research method in which a phenomenon is investigated in its real-life context. It's an empirical inquiry and research strategy that is based on an in-depth investigation of a group, event, or individual to explore the underlying principles causes.

Case Study Research - Definition, Methods, Example

The study of a person, a small group, a single situation, or a specific "case," is called a case study. It involves extensive research, including documented evidence of a particular issue or situation -- symptoms, reactions, affects of certain stimuli, and the conclusion reached following the study.

What is a Case Study? (with pictures)

What is a Case Study? A business case study is simply a story about how you successfully delivered a solution to your client. Case studies start with background information about the customer, describe problems they were facing, present the solutions you developed, and explain how those solutions positively impacted the customer's business.

How to Write a Case Study: Step-by-Step Guide (+ Examples)

Definition In the social sciences, the term case study refers to both a method of analysis and a specific research design for examining a problem, both of which can be used to generalize findings across populations. This tab focuses on the latter--how to design and organize a research paper that analyzes a specific case.

Writing a Case Study - Organizing Your Social Sciences ...

Case studies are in-depth investigations of a single person, group, event or community. Typically, data are gathered from a variety of sources and by using several different methods (e.g. observations & interviews). The case study research method originated in clinical medicine (the case history, i.e. the patient's personal history).

Case Study Method in Psychology | Simply Psychology

Basically, a case study is an in depth study of a particular situation rather than a sweeping statistical survey. It is a method used to narrow down a very broad field of research into one easily researchable topic.

Case Study Research Design - How to conduct a Case Study

A case study analysis requires you to investigate a business problem, examine the alternative solutions, and propose the most effective solution using supporting evidence.

Writing a Case Study Analysis | Ashford Writing Center

A case study is a research strategy and an empirical inquiry that investigates a phenomenon within its real-life context. Case studies are based on an in-depth investigation of a single individual, group or event to explore the causes of underlying principles. A case study is a descriptive and exploratory analysis of a person, group or event.

Definition of Case Study - PressAcademia

A case study is a research method to gain a better understanding of a subject or process. Case studies involve in-depth research into a given subject, in order to understand it's functionality and successes. Mostly importantly: case studies are stories.

15+ Professional Case Study Examples [Design Tips ...

A case study focuses on a single individual, a small group of people, or occasionally a single event. You'll be conducting qualitative research to find specific details and descriptions of how your subject is affected. For example, a medical case study might study how a single patient is affected by an injury.

3 Ways to Do a Case Study - wikiHow

A case study is unique within the social sciences for its focus of study on a single entity, which can be a person, group or organization, event, action, or situation. It is also unique in that, as a focus of research, a case is chosen for specific reasons, rather than randomly, as is usually done when conducting empirical research.

Conducting Case Study Research in Sociology

A case study is a detailed story of something your company did. It includes a beginning -- often discussing a conflict, an explanation of what happened next, and a resolution that explains how the

company solved or improved on something. A great case study is also often filled with research and stats to back up points made about a project's ...
