Science for all: The popularization of science in early ...

Science for All argues that the social environment of early twentieth-century Britain created a substantial market for science books and magazines aimed at those who had benefited from better secondary education but could not access higher learning. Scientists found it easy and profitable to write for this audience, Bowler reveals, and because

their work was seen as educational, they faced no hostility from their peers. But when admission to colleges and universities became more accessible in ...

Science for All - The Popularization of Science in Early ...

Science for All: The Popularization of Science in Early Twentieth-Century Britain. Victorian scientists were eager popularisers when building the standing of their new profession. The likes of Thomas Huxley were as likely to be found lecturing to working men or dashing off an essay for the Athenaeum as actually doing research.
