FINAL VERDICT

After checking out and assessing An Introduction To Law And Legal Reasoning Pdf from cover to cover, we have actually involved our final verdict.

The Pros

Among the major highlights of this publication An Introduction To Law And Legal Reasoning Pdf is its unique narration style which keeps the visitors involved throughout the book. Furthermore, the strong characters make guide a lot more relatable and satisfying to review. In addition, the plot spins keep the visitor on their toes, making guide uncertain and interesting.

The Cons

Nonetheless, there were some aspects that we found lacking. The pacing of An Introduction To Law And Legal Reasoning Pdf was sluggish sometimes, which made it feel dragged out. Furthermore, there were some loose ends that were not locked up by the end of the book, which left us with unanswered inquiries.

Final Thoughts

On the whole, we believe that An Introduction To Law And Legal Reasoning Pdf is worth a read, despite some small defects. The distinct storytelling design, relatable characters, and story twists

make it a rewarding enhancement to your shelf. So, if you're searching for an exciting read, *An Introduction To Law And Legal Reasoning Pdf* is absolutely worth taking into consideration.

An Introduction to Law *Cambridge University Press*

Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason *An Introduction to Law* is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options.

An Introduction to Law and Economics *Wolters Kluwer*

Distinguished by brevity, lucid writing, and well-chosen examples, *An Introduction to Law and Economics*, now in its Fifth Edition, focuses on a set of core topics that include property, contracts, torts, criminal law, and litigation. Avoiding specialized jargon and mathematics, Polinsky teaches students how to think like an

economist and understand legal issues from an economic perspective. New to the Fifth Edition: A streamlining of the products liability chapter A revised discussion of the redistributive effects of legal rules to reflect more recent scholarship on this topic The addition of several other refinements in the text and in new footnotes An updated bibliography Professors and students will benefit from: Solid coverage of relevant economic principles A normative approach that illustrates how to assess legal rules and policies in terms of economic and social goals Clear explanations of concepts

An Introduction to Law and Legal Reasoning *Wolters Kluwer*

Now in its Third Edition, *An Introduction to Law and Legal Reasoning* continues to be the ideal go-to for the first year law student. It is a short, practical book that introduces beginning law students and others to contemporary law and legal reasoning. By presenting these topics through various discussions of cases and examples, it provides students with a solid source to reference for years to come. A dependable, practical source, that: Covers analogical and deductive reasoning, as well as the roles of legal conventions, purposes, and policies in legal reasoning Discusses cases of varying difficulty to diversify the learning process Presents law and legal reasoning primarily through discussions of cases and examples that avoid the abstraction characteristic of most competing books Emphasizes the law as used in practice by lawyers and judges Provides an explicit and systematic introduction to law and legal reasoning Offers a source suitable for use as supplementary reading in any first year course, in legal research and writing courses, in paralegal courses, and in other

settings This great new edition has been carefully updated to include: A new chapter, "Hardest Cases," that highlights cases notorious in the press Updates throughout that guarantee the most current legal information

An Introduction to Law and Regulation

Text and Materials *Cambridge University Press*

In recent years, regulation has emerged as one of the most distinct and important fields of study in the social sciences, both for policy-makers and for scholars who require a theoretical framework that can be applied to any social sector. This timely textbook provides a conceptual map of the field and an accessible and critical introduction to the subject. Morgan and Yeung set out a diverse and stimulating selection of materials and give them context with a comprehensive and critical commentary. By adopting an interdisciplinary approach and emphasising the role of law in its broader social and political context, it will be an invaluable tool for the student coming to regulation for the first time. This clearly structured, academically rigorous title, with a contextualised perspective, is essential reading for all students of the subject.

Invitation to Law and Society

An Introduction to the Study of Real Law *University of Chicago Press*

Law and Society is a rapidly-growing interdisciplinary field that turns on its head the conventional, idealized view of the "Law" as

a magisterial abstraction. Kitty Calavita's *Invitation to Law and Society* brilliantly brings to life the ways in which law shapes and manifests itself in the institutions and interactions of human society, while inviting the reader into conversations that introduce the field's dominant themes and most lively disagreements. Deftly interweaving scholarship with familiar personal examples, Calavita shows how scholars in the discipline are collectively engaged in a subversive exposé of law's public mythology. While surveying prominent issues and distinctive approaches to the use of the law in everyday life, as well as its potential as a tool for social change, this volume provides a view of law that is more real but just as compelling as its mythic counterpart. In a field of inquiry that has long lacked a sophisticated yet accessible introduction to its ways of thinking, *Invitation to Law and Society* will serve as an engaging and indispensable guide.

An Introduction to the Law of Trusts *OUP Oxford*

A comprehensive, stimulating introduction to trusts law, which provides readers with a clear conceptual framework to aid understanding of this challenging area of the law. Aimed at readers studying trusts at an undergraduate level, it provides a succinct and enlightening account of this area of the law. Concise and clear, this book also identifies and discusses many analytical perspectives, encouraging a deeper understanding of the issues at hand. It offers an outstanding treatment of specific areas, in particular remedial constructive trusts and trusts of family homes. Ideal for providing a broad background to the issues before embarking on an in-depth study of trusts, it can also be

used to help the reader to develop their understanding. For those looking to challenge themselves, detailed footnotes highlight further issues and point the direction for future reading. Fully revised to take into account the Charities Act 2006, judicial developments through case law, and recent academic work in this area, this new edition in the renowned Clarendon Law Series offers a well-written, careful, and insightful introduction to the law of trusts.

Introduction to Law *Springer*

This book is exceptional in the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction, and it presents a unique way of looking at legal education. It is crucial for lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions. In this respect, being a lawyer involves being able to reason like a lawyer, even more than having detailed knowledge of particular sets of rules. *Introduction to Law* reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions. Where 'positive' law is discussed, the emphasis is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by, for instance, the common law and civil law tradition. The law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed.

Legal Literacy

An Introduction to Legal Studies *Athabasca University Press*

To understand how the legal system works, students must consider the law in terms of its structures, processes, language, and modes of thought and argument—in short, they must become literate in the field. *Legal Literacy* fulfills this aim by providing a foundational understanding of key concepts such as legal personhood, jurisdiction, and precedent, and by introducing students to legal research and writing skills. Examples of cases, statutes, and other legal materials support these concepts. While *Legal Literacy* is an introductory text, it also challenges students to consider critically the system they are studying. Touching on significant socio-legal issues such as access to justice, legal jargon, and plain language, Zariski critiques common legal traditions and practices, and analyzes what it means "to think like a lawyer." As such, the text provides a sound basis for those who wish to pursue further studies in law or legal studies as well as those seeking a better understanding of how the legal field relates to the society that it serves.

An Introduction to Law, Law Study, and the Lawyer's Role

In this newly updated volume, Moliterno and Lederer take a fresh and innovative look at the subject of law and what law study and the practice of law entail by combining a traditional academic viewpoint with elements of law practice and ethics as it continues to be widely used in orientation and introductory courses. The American legal system can be hard to understand. Going to law school is both difficult and anxiety-producing. *Introduction to Law* is designed to help in both areas. Written by two highly-experienced legal educators at America's oldest law school,

Introduction to Law provides the reader with a written equivalent of William & Mary Law School's famous introductory law school week. Often light-hearted, this useful and pragmatic book combines an innovative introduction to the American legal system with material on how to read and understand court cases and, critically, the lawyer's interaction with the client. All too often, legal texts ignore people, especially the client whose need for legal advice first engages the legal system. The text shows the reader how a lawyer must ascertain facts and goals from a client and then apply what the new lawyer (or law student) has learned about law and its interpretation to solve the client's problem. Revised in 2010 to be fresher, more readable, and more timely in its current events references, Introduction to Law is an ideal book for a soon-to-be law student or for anyone who wants a better understanding of how our legal system and lawyers function.

Introduction to Law and the Legal System *Houghton Mifflin College Division*

Introduction to Law and the Legal System provides an overview of law and the American legal system, using a variety of cases to support the major functions of U.S. law. Suitable for a variety of departments and courses, this text is known for its broad coverage and introductory level, flexible organization, and use of cases to explain legal concepts.

An Introduction to the Philosophy of Law *The Lawbook Exchange, Ltd.*

Pound, Roscoe. An Introduction to the Philosophy of Law. New

Haven: Yale University Press, 1922. 307 pp. Reprinted 2003 by The Lawbook Exchange, Ltd. LCCN 2002044351. ISBN 1-58477-327-8. Cloth. \$70. * Pound's Introduction outlines the philosophical foundations that support Anglo-American common law. A written version of the Storrs Lectures delivered at Yale University during the academic year 1921-1922. "Dean Pound has given us a clear, concise introduction to the philosophy of the law. It is so concise that it is impossible to summarize it so as to give any idea of its wealth of learning....An excellent, impartial and concise presentation of the subject..." William Herbert Page, Harvard Law Review 36:115-117 cited in Marke, A Catalogue of the Law Collection at New York University (1953) 922.

What Makes Law

An Introduction to the Philosophy of Law *Cambridge University Press*

This advanced introduction to central questions in legal philosophy attempts to breathe new life into stalled research.

Philosophy of Law

A Very Short Introduction *Oxford University Press*

Raymond Wacks reveals the intriguing and challenging nature of legal philosophy, exploring the notion of law and its role in our lives. He refers to key thinkers from Aristotle to Rawls, from Bentham to Derrida and looks at the central questions behind legal theory, and law's relation to justice, morality, and democracy.

An Introduction to American Law

The fundamental rules, court cases, concepts and trends of each key subject in American law are presented in a narrative tailored to the reader without an American legal background. Each chapter covers a major area of law, summarizes the leading doctrines, analyzes recurring, current and developing trends, highlights areas of contemporary debate, offers streamlined versions of precedent-setting cases, raises questions for further discussion, and lists important vocabulary words. This book is ideal for readers who want to understand the contemporary American legal system at a more than superficial level, but who are not currently studying to become American lawyers. The style, organization and content make the book attractive for such readers as those planning on entering law school; paralegal assistants; students of American law outside of the United States; American undergraduates taking a course in American law and/or in a pre-law program; and graduate level students in subjects other than American law. The size, weight and price of the book are tailored to make the book attractive to students.

Whose Monet?

An Introduction to the American Legal System *Wolters Kluwer*

This extraordinary paperback provides a highly accessible and appealing orientation to the American legal system and presents basic concepts of civil litigation to first-year law students. *Whose Monet?* An Introduction to the American Legal System focuses on a lengthy dispute over the ownership of a painting as a vehicle

for introducing students to the basic law school tasks of reading analytically, understanding legal materials, and working with the common law. The author and his colleagues have used these materials successfully in their classrooms for many years, ensuring their teachability and effectiveness: *Whose Monet?* can be used as primary course material in orientation courses or seminars, as well as collateral reading for in-semester Legal Process or Civil Procedure courses. The organization is logical and straightforward and the accessible writing style--lucid, descriptive, and conversational--is ideal for incoming students. The major events in a lawsuit are considered, and the text sheds light on how the law is applied in a civil dispute, introducing common law and statutory law and the various courts and their interrelationship (trial/appellate, state/federal). The author draws on judicial opinions, litigation papers, transcripts, and selections from commentators and various jurisprudential sources, thereby exposing the first-year student to as broad a spectrum of materials as possible. Telling the story of a real lawsuit (*DeWeerth v. Baldinger*)--from client intake through trial and various appeals--draws students into the legal process by means of an engaging narrative and makes for a truly enjoying teaching experience for professors. The lawyer's role is examined in both its functional and moral dimensions: What do lawyers do? What does society legitimately expect lawyers to do? This book is suitable for both classroom and stand-alone assigned reading.

Law and Society

An Introduction *CRC Press*

In recent years, legal studies courses have increased the focus on contemporary social issues as part of the curriculum. *Law and Society: An Introduction* discusses the interface between these two institutions and encourages students in the development of new insights on the topic. The book begins by introducing definitions, classifications, and the concept of the "rule of law." It then explores: Principal legal systems, including common law, civil law, Islamic and socialist systems, and American Indian law Feminist legal theories, critical race theory, and the roles of morality and values in social control The contributions of sociological research and its impact on the law Court systems and procedures, the exclusionary rule, and plea bargaining The nature and process of legislative, administrative, and judicial lawmaking Alternative dispute resolution and international arbitration and mediation The law as a mechanism for social changes, such as those brought on by the 1964 Civil Rights Act Issues related to the legal profession and professional responsibility This text eliminates the need for a separate reader by also discussing controversial legal topics—including affirmative action, education, the death penalty, right to work laws, and abortion. Each chapter builds on the previous ones and includes concrete examples of the issues involved. Enhanced by chapter summaries of salient points, review questions, and practical exercises, the book is designed to encourage students in the development of new insights into the relationships between law and society.

An Introduction to International Law *Martinus Nijhoff Publishers*

National judges are a sort of propelling force behind international law to the extent that they perceive the need to realize that international solidarity which is too often lacking at the level of governments. Hence they are the principal addressees of this book.

Order and Dispute

An Introduction to Legal Anthropology *Quid Pro Books*

A classic resource in the modern study of the anthropology of law, this book is now widely available again in an updated and expanded edition. There are many societies that survive in a remarkably orderly fashion without the help of judges, law courts and policemen. They are small in scale and have relatively simple technologies, lacking those centralized agencies which we associate with legal systems; yet early anthropologists did not hesitate to name "law," along with kinship, politics and religion, as one of the facets of their subject. Simon Roberts contends, however, that legal theory has become too closely identified with our own arrangements in western societies to be of much help in cross-cultural studies of order. But conversely, by looking at the ways in which other societies keep order and solve disputes, he sheds valuable light on the contemporary debates about order in our own society, in a straightforward text which will be accessible to the general reader and anthropologist alike. Now in its Second Edition with a new Foreword and Afterword by the author, this renowned introduction to the anthropology of law is part of the Classics of Law & Society Series from Quid Pro Books.

About Law

An Introduction *Oxford University Press*

Here is an introduction to the intellectual challenges presented by law in the western secular tradition. Treating not just British law, but the whole western tradition of law, Professor Honore guides the reader through eleven topics which straddle various branches of the law, including constitutional and criminal law, property, and contracts. He also explores moral and historical aspects of the law, including a discussion of justice and the difference between civil and common law systems. The law, Honore argues, is mainly concerned with the question of obedience to authority, and establishing the situations in which obedience is required and those in which it may be waived ought to be the central concern of all legal theorists.

An Introduction to the Comparative Study of Private Law

Readings, Cases, Materials *Cambridge University Press*

This collection of readings places side by side the principal doctrines of contracts, torts, unjust enrichment, and property in the cases of the United States, England, France, Germany and China. It presents code provisions, cases, and other legal materials that describe the law in force, and places each doctrine in its historical context to enable an understanding of the development of law as an ongoing process, in which the resolution of current issues depends upon how past issues were resolved. It both provides a road map of the private law of these jurisdictions, and illustrates how private law has been shaped by

history, by the effort to solve common problems, and by differences in culture. This new edition reflects changes in the law, and includes the addition of Chinese Law as a comparative study.

An Introduction to the Sociology of Law

This completely revised edition updates and expands coverage of the new postmodernist and semiotic theories, while providing clear and concise summaries of other contemporary and classic theorists.

An Introduction to Constitutional Law

100 Supreme Court Cases Everyone Should Know *Aspen Publishers*

This multimedia platform combines a book and video series that will change the way you study constitutional law. An Introduction to Constitutional Law teaches the narrative of constitutional law as it has developed over the past two centuries. All students—even those unfamiliar with American history—will learn the essential background information to grasp how this body of law has come to be what it is today. An online library of sixty-three videos (access codes provided with purchase of the book) brings the Supreme Court's one hundred most important decisions to life. These videos are enriched by photographs, maps, and even audio from the Supreme Court. The book and videos are accessible for all levels: law school, college, high school, home school, and independent study. Students can read and watch these materials before class to prepare for lectures or

study after class to fill in any gaps in their notes. And, come exam time, students can watch the entire canon of constitutional law in about twelve hours.

An Introduction to Animals and the Law *Springer*

This exploration of the newly emerging, diverse, and controversial area of animal law presents a basic survey of the laws designed to protect animals, analyzing and critiquing them, and proposing a future where the legal regime properly recognizes and protects the inherent worth of all animals.

An Introduction to Legal Systems

An Introduction to Jewish Law *Cambridge University Press*

It is the first book to present a systematic and synthetic introduction to Jewish Law.

INTRODUCTION TO THE LAW OF CONTRACT.

Introduction to the Law and Legal System of the United States *West Academic*

This text provides an introduction to U.S. law. It is intended for law students, lawyers, and legal scholars from foreign countries; U.S. graduate and undergraduate college students; members of the general reading public in the United States; and anyone who seeks a "big picture" of the law and legal system. Not a casebook, it explains the major substantive areas of the law in narrative form with citations to cases and sources for additional detail. In addition to covering the principal substantive areas of

the law, the book has chapters on: essential basic history and governmental structure necessary to an understanding of the legal system; the legal profession; the theory and practice of the adversary system of justice; and statutory interpretation and case law reasoning.

An Introduction to Biblical Law *Wm. B. Eerdmans Publishing*

Informed, accessible textbook on law collections in the Pentateuch In this book William Morrow surveys four major law collections in Exodus-Deuteronomy and shows how they each enabled the people of Israel to create and sustain a community of faith. Treating biblical law as dynamic systems of thought facilitating ancient Israel's efforts at self-definition, Morrow describes four different social contexts that gave rise to biblical law: (1) Israel at the holy mountain (the Ten Commandments); (2) Israel in the village assembly (Exodus 20:22-23:19); (3) Israel in the courts of the Lord (priestly and holiness rules in Exodus, Leviticus, and Numbers); and (4) Israel in the city (Deuteronomy). Including forthright discussion of such controversial subjects as slavery, revenge, gender inequality, religious intolerance, and contradictions between bodies of biblical law, Morrow's study will help students and other serious readers make sense out of texts in the Pentateuch that are often seen as obscure.

An Introduction to International Human Rights Law *BRILL*

This book provides a precise concept of international human rights law, its development and the tangible meaning of civil and political rights, economic and social rights. It has highlighted women's rights, globalization, human rights education, role of the

UN and NGOs to protect human rights.

An Introduction to the Law of Economic and Monetary Union *Edward Elgar Publishing*

This incisive book is an accessible guide to the laws and policies relating to economic and monetary union (EMU). Providing a rich, multidisciplinary analysis, it combines historical, legal and economic perspectives to offer a detailed understanding of how EMU has developed since its inception and how it works in practice today. This book will be a valuable reference for those teaching and studying advanced courses on EU law, as well as courses that cover the economic history of EU integration.

An Introduction to the American Legal System, Government, and Constitutional Law *Wolters Kluwer*

This new coursebook introduces students to the relationship among the American constitutional, governmental, and legal systems. With a clear and concise presentation, this book explores historical and contemporary events, judicial opinions, and constitutional provisions that demonstrate how the three systems accommodate social progress in an ever-changing and highly diverse nation. Perfect for LLM courses or even undergraduate classes, this book aims to teach students how to understand constitutional doctrines, brief judicial opinions, and how American history affects contemporary legal issues. Features: Clear and concise presentation and logical organization of material making it an excellent introductory book to the American legal system Inclusion of modern cases on relevant topics, such as same-sex marriage, legalization of marijuana, and

homicidal laws affecting juveniles Chapter questions that facilitate basic legal analysis through hypotheticals, opinion briefing, and application of constitutional provisions Inclusion of important historical and political events, such as lawsuits brought against Presidents, congressional impeachment powers, the Electoral College System, the Supreme Court's resolution of voting issues, the Civil War and post Civil War constitutional amendments, the Civil Rights movement, presidential and congressional war powers, and Supreme Court opinions about Guantanamo Bay detainees

Children's Rights and the Law

An Introduction *Routledge*

This book identifies the definition of a child within the law, the rights of children, and discusses the extent to which primarily English law gives adequate recognition to and protection of these rights. To what extent does English law give adequate recognition to and protection of the rights of children? Historically the idea of and protection of rights has focused on parental rights rather than the rights of the child. The rights of children have remained far less recognised and certain until recently. Using case studies from the United Kingdom and beyond, this book takes a thematic approach to children's rights and considers topics including: underlying concepts such as the welfare of the child and safeguarding, the right to education and to medical treatment, the right to freedom from abuse and/or sexual and commercial exploitation, including contemporary challenges from forced marriage, FGM, modern slavery and trafficking, the role of

the State in relation to children in need of care and protection, children's rights in the criminal justice system, the right to contract and employment. In addition, the book provides an introduction to key aspects of domestic and international law, including the Children Act 1989, the UN Convention on the Rights of the Child, the European Convention on Human Rights and the Human Rights Act 1998. The book will be of great interest to law and social science students in the areas of Child Development and Protection, Human Rights Law, Family Law, Child Law, and Child Studies, as well as to social workers, police officers, magistrates, probation officers and other related professions.

An Introduction to Health and Safety Law

A Student Reference *Routledge*

An Introduction to Health and Safety Law provides a clear, concise overview of health and safety law in the United Kingdom. With reference to the European Union, this book discusses criminal and civil liability at length to provide a clear understanding of this area of law which has been subject to change over the 20 years. Key case studies and statistical information on prosecutions, fines and enforcement notices help to contextualise health and safety law to provide students and professionals with a full understanding of health and safety law in the UK. This book includes chapters on: the legal framework criminal liability enforcement of criminal liability civil liability civil remedy subordinate legislation. This book is an essential reference for students studying towards NEBOSH qualifications and students studying at university level. It provides a

comprehensive understanding of UK health and safety law and will be a useful reference when entering the professional field.

An Introduction to Law *Agustín Gordillo*

Natural Law *Transaction Publishers*

An Introduction to International Organizations Law *Cambridge University Press*

The third edition of this market-leading textbook (previously called An Introduction to International Institutional Law) is written in a clear, three-part structure. It is centred on the dynamics of the relationships between international organisations and their organs, staff, and the outside world. It discusses the essential topics of the law of international organisations, including powers, finances, and privileges and immunities, as well as membership rules, institutional structures, and accountability. The newly revised text has been updated extensively to reflect the entry into force of the EU's Lisbon Treaty (and Croatia's accession) and new articles on the responsibility of international organisations. The chapters have also been reorganised for further clarity. Two new chapters, on the international civil service and the relations between organisations and other institutions, respectively, have been added.

An Introduction to Advocacy *Lawbook Company*

AN INTRODUCTION TO ADVOCACY, 2nd Edition is a guide to the skills of advocacy for those new to the courtroom. It concentrates on the basics necessary to conduct an effective trial. The book

takes you through the trial process step by step. At each stage the author provides helpful tips and practical examples designed to show the principles of good advocacy at work. Geared toward conducting a trial before a judge alone, this book reflects the reality that most new practitioners will commence their courtroom careers in the lower courts. However, the principles of advocacy that are outlined will hold new counsel in good stead at all levels of the court hierarchy. The second edition includes new chapters on: written submissions; special witnesses; making oral submissions; introducing and using exhibits; impeachment; the ethics of advocacy. Accessible, amusing and informative, *AN INTRODUCTION TO ADVOCACY*, 2nd Edition is the essential starting point for those about to step into court for the first time and those who make only occasional appearances.

Introduction to Law and the Legal System *Cengage Learning*
INTRODUCTION TO LAW AND THE LEGAL SYSTEM provides an overview of law and the American legal system, using cases to support the major functions of U.S. law. Suitable for a variety of departments and courses, this text is known for its broad coverage, flexible organization, and use of cases to explain legal concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

An Introduction to the Philosophy of Law *Transaction Publishers*

Roscoe Pound ranks as one of the most prominent legal scholars in the development of American jurisprudence. In *An Introduction*

to the Philosophy of Law, he shows how philosophy has been a powerful instrument throughout the history of law. He examines what philosophy has done for some of the chief problems of the science of law and how it is possible to look at those problems philosophically without treating them in terms of a particular time period. The function of legal philosophy, writes Pound, is to rationally formulate a general theory of law which conforms to the interests, the general security first and foremost, of society. According to Pound, philosophies of law historically have rationally adjusted legal developments to the circumstantial needs of society. Pound concerned himself primarily with the practical effects of American legal developments within the context of social interests and general security. He encouraged American jurists to abandon efforts to conform obsolete models of legal philosophy to new realities. The significance of Pound's scholarship, particularly *An Introduction to the Philosophy of Law*, is the legal relativism inherent therein and its ongoing impact not merely on American jurisprudence, but on the imperative that American public policy be tested in the juridical crucible of relativism. Marshall DeRosa writes in his new introduction that in the light of twentieth-century judicial politics, Roscoe Pound's philosophy of law has prevailed to a significant extent. This book's relevance to appreciating the development of the American legal system in all its complexities--including liability law, contract law, and property law--is in itself notable. But, in terms of understanding the twentieth-century development of the American rule of law, *An Introduction to the Philosophy of Law* is indispensable. It will make an invaluable addition to the personal libraries of legal theorists, philosophers, political scientists, and

historians of American law.
