Sc001 Constellation Chart - wallet.guapcoin.com

From Star Chart To Sky The next step in using a star chart is to match what you see on the map with what you see in the sky. Begin with the constellation, and then identify the very brightest of the stars you see around your designated target and locate that pattern in the sky.

How Do I Read a Star Chart? | Orion Telescopes: Articles

To start the recognition of the constellations, the map must first be rotated so that the cardinal point to be observed is below. Thus, the stars located on the horizon at that cardinal point will be in position coinciding with that of the map. The zenith (the imaginary point that is exactly above our heads) is in the center of the map.
