The Art Of Zootopia

The Art of Zootopia is such a treat in the way that it not only revisits the movie's delightfully heartwarming characters and fantastic art, but gives us an engaging look at what went into the making of Zootopia. The book starts with author Jessica Julius describing the movie's original story pitch - a 1960s spy story - and how it evolved over four years into the modern day tale of underdogs, prejudice, and fighting for justice for all.

Zootopia is one of the best movies for me this year and it's only March. This companion artbook too is a gem. This wonderful 160-page hardcover artbook features the concept art for the characters, environments and props that make up the world of Zootopia. If you thought that the city was busy with so many things going on, well, this book will delight you with additional environments and characters that weren't even included in the film.
