Stroke Concept Map | Nursing Concept Maps | NURSING.com

Concept mapping can help both those in the nursing profession and those who are in nursing school. Creating a concept map develops a nursing student's critical thinking and clinical reasoning skills. It can also help students take the theoretical knowledge that they have gained from class and apply it to an actual case study or real-life patient in an organized way.

Amazon.com: nursing concept map: Books

Concept mapping and mind mapping have been used in science education since the 1970s. Nursing students in undergraduate and graduate classes are frequently asked to create concept maps or mind maps around a central concept or idea. These assignments may be used for individual or group projects and as a starting point for graduate student research.
