The upshot of David Harvey's *The New Imperialism* is that the new period in which we find ourselves in the world is not about territorial control, as in the days, for example, when the British Empire controlled so much of the world. Rather, the new imperialism is about economic control, particular control of resources.

In this closely argued and clearly written book, David Harvey, one of the leading social theorists of his generation, builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics. The compulsions behind the projection of US power on the world as a "new imperialism" are here, for the first time, laid bare for all to see.
