Agency And Joint Attention

One basic goal of Agency and Joint Attention is to unravel how these abilities originate. One approach that has received a lot of recent attention is social. Some argue that by virtue of an infant's intense eye gaze with her mother, she is able, by the age of four months, to establish a relationship with her mother that differentiates between

"me" and "you."

Agency and Joint Attention - Janet Metcalfe; Herbert S

...

The puzzle that motivates Agency and Joint Attention is how people are able at one and the same time to maintain their own sense of autonomy, taking responsibility for their own actions and distinguishing them from the actions of others, while still being able to understand, appreciate, and coordinate their thoughts and actions with other people. This volume emphasizes the special role of human self-reflective consciousness in this complex but central coordination.
