In linguistics, a speech act is an utterance defined in terms of a speaker's intention and the effect it has on a listener. Essentially, it is the action that the speaker hopes to provoke in his or her audience. Speech acts might be requests, warnings, promises, apologies, greetings, or any number of declarations.

Speech Acts in Linguistics - ThoughtCo

The speech act theory considers language as a sort of action rather than a medium to convey and express. The contemporary Speech act theory developed by J. L. Austin a British philosopher of languages, he introduced this theory in 1975 in his well-known book of 'How do things with words'.

SPEECH ACT THEORY

The speech act theory was introduced by Oxford philosopher J.L. Austin in How to Do Things With Words and further developed by American philosopher J.R. Searle. It considers the degree to which utterances are said to perform locutionary acts, illocutionary acts, and/or perlocutionary acts.

Speech Act Theory: Definition and Examples

Speech act theory is a theory of language that says that our utterances (the things we say) aren't just about words and their dictionary definitions. Our utterances can accomplish things and bring about various actions. You're likely to come across two names again and again when you research the theory: J.L. Austin

and John R. Searle.
