Time Management for System Administrators by Limoncelli ...

Fortunately, system administrators can be very adept at dealing with challenges. A good time management system is based on the principles of using one system, conserving brain power, and using routines. In order for the system to be effective, policies must be in place to support it. The three key policy points are defining the official ways for users to get help, the scope of the work supported, and what constitutes an emergency. The system administrator has two basic tools for managing ...
