Confusingly, Switchmaster is a brand owned by Drayton, which is part of Invensys Controls. The 400 is part of the 800 range. They call it the Switchmaster SM400. IIRC it plugs onto a standard Drayton backplate so you can fit pretty well any Drayton or ACL programmer, mechanical or electronic, if yours ever goes wrong. They will send you a conversion list which is usually included with the ...

Switchmaster 400 - Help! | DIYnot Forums

Our timer for the central heating has broken, the heating still works but only when you manually put the switch on to Constant, which obviously is a pain these cold mornings. The control is a Switchmaster 400 which I have been told is now obsolete. Other than get a plumber in to fit a new one which we just cant afford before Xmas, are there any other controls you can buy which are compatible ...

Drayton Switchmaster Sm300 Timer Switch Manual I need wiring diagram for switchmaster sm300. ... They list the original VW service manual for your car.It should have the wiring diagram that you need but you could confirm that with them before you bought it. I've used them befor and had excellent service. Hope

this helps. Download SWITCHMASTER SM300 SCHEMATICS User Manual - PDF Switchmaster ...

Switchmaster Sm300 Manual - backpacker.com.br

Unfortunately the Switchmaster 400 is from an era, before there was very much standardisation and each manufacturer had their own wiring configuration. So unless you can source another Switchmaster 400 on an auction website for example, some minor rewiring will be required to replace it with a new programmer.

Switchmaster 400 Easy Replacement??? | DIYnot Forums

Rated 4 out of 5 by JagsFan99 from Drayton LP711 Bought this to replace an old Drayton SM1 which was getting very noisy. Turned off supply to existing switch, undo 2 screws at the bottom, remove old unit off backplate, then the LP711 clips straight onto existing backplate. 10 minute job. Wish more manufacturers would make it this easy to swap units. Date published: 2020-01-02. Rated 5 out of 5 ...

Switchmaster 300 | Screwfix Community Forum

The original one you could press a button and the heater would switch on for a 1 hour boost. The new one still has the button but once pressed the heating stays on until the end of the next timed unit unless you physically switch it off. This is a bit of a nuisance as the timer is upstairs so it means having to keep going up and down stairs.
