As I've navigated the social class ladder, I've realized social class is about much more than income. It's about habits, cultural tastes, discussion topics, etc. Essentially, social class shapes how one views the world and the things people do or don't do. It's a force that unknowingly permeates our lives.

Social class in the United States is a controversial issue, with social scientists disagreeing over models, definitions, and even the basic question of whether or not distinct classes exist. Many Americans believe in a simple three-class model that includes the rich or upper class, the middle class, and the poor or working class.

In such a case, social class refers to the socio-cultural aspects of one's life, namely the traits, behaviors, knowledge, and lifestyle that one is socialized into by one's family. This is why class descriptors like "lower," "working," "upper," or "high" can have social as well as economic implications

for how we understand the person described.
