There is a service manual but it's not much use for component level repair. The only more detailed information is in the TDS520B Component Service Manual, which (of course) is for a different model, but it may still give some useful pointers. You should be able to find these with a few minutes on Google.

The Tektronix TDS754D oscilloscope is a graph-displaying device – it draws a graph of an electrical signal. In most applications, the graph shows how signals change over time: the vertical (Y) axis represents voltage and the horizontal (X) axis represents time. The

intensity or brightness of the display is sometimes called the Z axis.
