One of the most powerful forces in business today is the positive psychology movement -- overcoming self-defeating attitudes and developing our talents and positive traits. Much of the new thinking, in fact, stems directly from the concepts in Norman Vincent Peale's great classic bestseller, *The Power of Positive Thinking*, which has been translated into forty-two languages and has sold over 22 million copies. Now, after years of extensive research and field testing, working in cooperation with the Peale Center and major corporations nationwide, Scott Ventrella has adapted those concepts into a systematic program for people in business to achieve greater levels of personal and professional performance. *The Power of Positive Thinking in Business* provides a practical way for each of us to develop and actually strengthen the ten traits of a positive thinker. Inevitably, our performance rises to new levels when we learn how to overcome negative attitudinal barriers such as fear, lack of self-confidence, and low self-esteem, and instead develop the traits that characterize a positive thinker: optimism, enthusiasm, belief, integrity, courage, confidence, determination, patience, calmness, and focus. *The Power of Positive Thinking in Business* encourages us to concentrate on objective, rational thinking instead of self-limiting beliefs and negative self-talk. The result is an increased ability to deal effectively with tough situations and difficult people, in both business environments and personal lives. "Fill your mind with all peaceful experiences possible, then make planned and deliberate excursions to them in memory. You must

learn that the easiest way to an easy mind is to create an easy mind. This is done by practice, by the application of some such simple principles as outlined here. The mind quickly responds to teaching and discipline. You can make the mind give you back anything you want, but remember the mind can give back only what it was first given. Saturate your thoughts with peaceful experiences, peaceful words and ideas, and ultimately you will have a storehouse of peace-producing experiences to which you may turn for refreshment and renewal of your spirit. It will be a vast source of power." Norman Vincent Peale, an American minister and author, was a progenitor of the theory of Positive Thinking. Born in Bowersville, Ohio, Peale graduated from Bellefontaine High School. He earned degrees at Ohio Wesleyan University and Boston University School of Theology. He was brought up as a Methodist and was ordained as a Methodist minister in 1922. A decade later, Peale changed his religious affiliation to the Reformed Church in America in 1932, and thus began his 52-year tenure as pastor of Marble Collegiate Church in Manhattan. In 1935, Peale also started a radio program, "The Art of Living", which lasted for 54 years and gained immense popularity. He was a copious writer, and his most widely read book, The Power of Positive Thinking sold around 5 million copies. Peale also cofounded The Horatio Alger Association along with Peale Center, Guideposts Publications, and the Positive Thinking Foundation, all of which aim to advance Peale's theories of Positive Thinking.
