The sale of a business usually is not a sale of one asset. Instead, all the assets of the business are sold. Generally, when this

occurs, each asset is treated as being sold separately for determining the treatment of gain or loss. A business usually has many assets. When sold, these assets must be classified as capital assets, depreciable property used in the business, real property used in the business, or property held for sale to customers, such as inventory or stock in trade.
