Introduction to Modeling and Simulation with MATLAB and Python. Welcome to the student support page for our book Introduction to Modeling and Simulation with MATLAB and Python. This site has a number of downloadable materials related to the book as well as a discussion area where we welcome your comments and suggestions about the site and the book. We have divided the site pages by book chapter and have a number of items related to each chapter:

Introduction to Modeling and Simulation

next task to consider is the appropriate simulation period. T is defined as the elementary period for a baseband signal, but since we are simulating a passband signal, we have to relate it to a time-period, $1/R_s$, that considers at least twice the carrier frequency. For simplicity, we use an integer relation, $R_s = 40/T$. This relation
