CIBSE Knowledge falls into the following categories: CIBSE guides are the flagship CIBSE publications, and offer concise guidance

on the fundamentals of building services engineering. Their primary aim is to provide the data necessary to enable designers to make decisions in everyday working situations.

CIBSE - Building Services Knowledge

The luminous flux describes the quantity of light emitted by a light source. The luminous efficiency is the ratio of the luminous flux to the electrical power consumed (lm/W). It is a measure of a light source's economic efficiency. Luminous intensity The luminous intensity describes the quantity of light that is radiated in a particular direction.
