Reloading Guide For Pistols 9mm

Reloading the 9mm is not a difficult proposition; it's a relatively straightforward design. It is a straight-walled, slightly tapered case, which headspaces off of the case mouth. Therefore, you'll want to be very careful about trimming the brass to proper length and leaving a good, square case mouth.

Loving Your Luger: Reloading the 9mm Luger | Gun Digest

In today's shooting world, the 9mm is the most common caliber of choice for pistol shooters. In a semi-auto pistol, the magazine size averages 17 rounds. While the 9mm's stopping power doesn't come near to that of the .45, the advancements of ballistics research coupled with the large number of available rounds in one magazine makes it a very formidable weapon of choice.

...

Handgun reloading data | Loads for pistol calibers ...

If it is brass from a high pressure submachine gun load, it may not be

suitable for reloading. The general consensus is that your own once-fired brass is the best source for 9mm cases. The best values from a reloader's standpoint are probably value packs of Winchester USA 115gr FMJ or case quantities (1,000 rounds) of S&B 115gr FMJ and GECO 124gr FMJ.

HANDLOADING TIPS for 9mm - czechpistols

There's a couple parts to a standard bullet cartridge. The brass casing, gun powder, bullet, and primer. The gun's hammer/striker hits the primer which creates a little explosion that ignites the gun powder and pushes the bullet through the barrel. You'll be preparing the case and putting all these parts together in a reloading press.
