The FRIGOBLOCK 3-phase alternator produces 230/400 V and 50 Hz, i.e., the same voltage and frequency as the European power supply system. This

means that there is no problem to run FRIGOBLOCK machines on a mains supply without the need of any additional equipment. Because of the market position of the alternator driven FRIGOBLOCK refrigeration machines, well-known truck manufacturers already take into account the technical requirements for the installation of FRIGOBLOCK alternators during ...

3-phase alternator system » FRIGOBLOCK

The three-phase alternator, as the name implies, has three single-phase windings spaced such that the voltage induced in any one phase is displaced by 120° from the other two. A schematic diagram of a three-phase stator showing all the coils becomes complex, and it is difficult to see what is actually happening.
