Astronomy. What
Aboriginal and Torres
Strait Islander peoples
see in the sky are not
only planets, stars and
other physical bodies,
but something much
grander: a confirmation
of what we already
know about how the
world operates – time,
life, our place in the
universe. In Aboriginal
and Torres Strait
Islander cultures,
everything on the land
is reflected in the sky.

The passions of Aboriginal astronomy guide, Willy Stevens ...

The evidence for Aboriginal astronomy goes beyond word of mouth. We see it in ancient rock art as well, and some stone arrangements seem to be laid out astronomically to a precision of a few

degrees. The Wurdli Youang stone arrangement, built by the Wathaurung people in Victoria hundreds or thousands of years ago, has been carefully built to point towards the setting Sun at midwinter, midsummer and the equinoxes.

The astronomy of the Aborigines - skyatnightmagazine

The Lakota/Dakota, Ojibwe, and Cree each have their own map of the sky. Ojibwe stars can be best understood in terms of the four seasons. In each season, you will see constellations more promptly in their season. There are many stories and lessons to be learned within the stars.

Dark patches in the sky
Unlike Greek celestial tradition, which focuses almost exclusively on stars, Aboriginal astronomy focuses on the Milky Way and often incorporates the dark patches between stars. The Emu in the Sky, a story common to many Aboriginal groups, is an example of this — its

body is made up of the dark patches in the Milky Way.

Ancient stargazing meets modern astronomy to share ...

Another example of Aboriginal astronomy being used to guide relationships between people and nature can be found in Victoria. In

Western Victoria natural food sources are scarce during the winter drought. The Wergaia people have a story about a woman called Marpeankurric who set out to search for food during this difficult time. She followed some ants that were marching into a bush and then disappearing underground.

Aboriginal Astronomy: Navigating Seasons by the Stars ...

Australian Aboriginal astronomy is a name given to Aboriginal Australian culture relating to astronomical subjects – such as the Sun and Moon, the stars, planets, and the Milky Way, and their motions on the sky. One of the earliest records of

Aboriginal astronomy was made by William Edward Stanbridge, an Englishman who emigrated to Australia in 1841 and befriended the local Boorong people. Dawes Review 5 attempts to summarise all published research on Aboriginal astronomy, to 2016. Some ...
