Pressure Ulcers Guidelines For Prevention

This guideline covers risk assessment, prevention and treatment in children, young people and adults at risk of, or who have, a pressure ulcer (also known as a bedsore or pressure sore). It aims to

reduce the number of pressure ulcers in people admitted to secondary or tertiary care or receiving NHS care in other settings, such as primary and community care and emergency departments.

Overview | Pressure ulcers: prevention and management ...

Risk assessment is an essential part of preventing pressure ulcers. Although the use of published pressure ulcer risk assessment scales has been incorporated into these guidelines, it is vital that these assessments are used only as a prompt and should not replace clinical judgement.

Guidelines on Prevention and Management of Pressure Ulcers ...

1.2.5 Ensure that neonates and infants who are at risk of developing a pressure ulcer are repositioned at least every 4 hours. 1.2.6 Encourage children and young people who are at risk of developing a pressure ulcer to change their position at least every 4 hours. If they are unable to reposition themselves, offer help to do so, using appropriate equipment if needed.
