A textile is a flexible material made by creating an interlocking network of yarns or threads, which are produced by spinning raw fibres into long and twisted lengths. Textiles are then formed by weaving, knitting, crocheting, knotting, tatting, felting, or braiding these yarns together. The related words "fabric" and "cloth" and "material" are often used in textile assembly trades as synonyms for textile. However, there are subtle differences in these terms in specialized usage. A textile is an
