The Spiritual and Musical Journey of George Harrison *Wiley*

A fascinating read. –Associated Press Joshua Greene, who studied meditation with the legendary Beatle George Harrison, draws on personal remembrances, recorded conversations, and firsthand accounts to create a moving portrait of Harrison's spiritual life, his profound contribution to the Beatles' music, and previously unpublished anecdotes about his time with music legends Bob Dylan, Elvis Presley, and others. ""Many well-known artists have touched people's hearts with their music, but few have ever succeeded in touching people's souls. That was George's gift, and his story is described here with affection and taste. A wonderful book."" –Mia Farrow

Architecture and Public Space in Twentieth-Century European Culture *Reaktion Books*

Here Comes the Sun looks at how social reformers, planners and architects in the early twentieth century tried to remake the city in the image of a sunlit, ordered utopia. While much has been written about architectural modernism, Worpole concentrates less on buildings and more on the planning of the spaces in-between – the parks, public squares, open-air museums, promenades, public pools and other public leisure facilities. Life in the open was of particular concern to early urban planners and reformers, with their dreams of release from the confines of overcrowded, unsanitary slums. Picturing youthful working-class bodies made healthy by exercise and tanned by the sun, they imagined an escape route from cities. Worpole demonstrates how open-air public spaces became sought-after commissions for many early modernist architects in the early 1900s, resulting in the transformation of the European cityscape. "...a fascinating account of the political idealism that informed urban planning for the first two-thirds of the twentieth-century...full of insights into how public space influences a sense of belonging and ownership."—The Guardian "This is one of those books you stroke lovingly. Open it, and there is page after page of beautiful photographs...this book combines history, society, politics, environment and

place in a well-written and emotive text. The strength of the book is the way it crosses these traditional boundaries and disciplines."—Town and Country Planning "Drawing on architectural theories, philosophy, literature and even film-making, Worpole's book is wide-ranging and erudite and should be of interest to the layperson as well as to the urban planner. It is also elegantly written and complemented by a mixture of black and white and colour photographs to provide a visual emphasis to the points he raises."—N16 Magazine

How it feeds us, kills us, heals us and makes us what we are *Hachette UK*

'Illuminating!' Professor Brian Cox 'Every Steve Jones book is a masterclass in clear and captivating writing with tantalising detours into beguiling anecdotes. Here Comes the Sun is dense with ideas and stories and, like all his books, it will change the way you see the world around you' Robin Ince Our sun drives the weather, forms the landscape, feeds and fuels - but sometimes destroys - the creatures that live upon it, controls their patterns of activity, makes chemicals in the skin that cheer up those who bask in its rays, and for the ancients was the seat of divine authority. In Here Comes the Sun, Steve Jones shows how life on Earth is ruled by our nearest star. It is filled with unexpected connections; between the need to stay cool and man's ability to stand upright, between the power of memory and the onset of darkness, between the flow of solar energy through the plants and animals and of wealth through society, and between Joseph Goebbels' 1938 scheme to make Edinburgh the summer capital of a defeated Britain and the widening gap in the life expectancy of Scottish men compared to that of other European men brought on by thnat nation's cloudy climate. Its author charts some of his own research in places hot and cold across the globe on the genetic and evolutionary effects of sunlight on snails, fruit-flies and people and shows how what was once no more an eccentric specialism has grown to become a subject of wide scientific, social and political significance. Stunningly evocative, beautifully written and packed full of insight, Here Comes the Sun is Steve Jones's most personal book to date.

Solid State

The Story of "Abbey Road" and the End of the Beatles *Cornell University Press*

Acclaimed Beatles historian Kenneth Womack offers the most definitive account yet of the writing, recording, mixing, and reception of Abbey Road. In February 1969, the Beatles began working on what became their final album together. Abbey Road introduced a number of new techniques and technologies to the Beatles' sound, and included "Come Together," "Something," and "Here Comes the Sun," which all emerged as classics. Womack's colorful retelling of how this landmark album was written and recorded is a treat for fans of the Beatles. Solid State takes readers back to 1969 and into EMI's Abbey Road Studio, which boasted an advanced solid state transistor mixing desk. Womack focuses on the dynamics between John, Paul, George, Ringo, and producer George Martin and his team of engineers, who set aside (for the most part) the tensions and conflicts that had arisen on previous albums to create a work with an innovative (and, among some fans and critics, controversial) studio-bound sound that prominently included the new Moog synthesizer, among other novelties. As Womack shows, Abbey Road was the culmination of the instrumental skills, recording equipment, and artistic vision that the band and George Martin had developed since their early days in the same studio seven years earlier. A testament to the group's creativity and their producer's ingenuity, Solid State is required reading for all fans of the Beatles and the history of rock 'n' roll.

Beating with the pulse of a long-withheld confession and peppered with lilting patois, Patsy gives voice to a woman who looks to America for the opportunity to love whomever she chooses, bravely putting herself first. A Young Family's Journey Through Cancer *Bookhouse Fulfillment*

Here Comes the Sun is the tale of a quest. It offers a clear and honest look at what happens when an illness throws life off track, and how a combination of science, love, and serendipity can help put things right. At the age of thirty-four, Betsy Lucas was diagnosed with late-stage leukemia.

Without treatment she had only months to live. At the time her daughters were ten months old and three years old. Together, Betsy and her husband, Brian, started a journey through chemo, radiation, and a bone marrow transplant. The path was far from steady, but with the help of countless supporters and a generous young man in Germany, they put one foot in front of the other, crossing days, months, and years off the calendar on the way to being cured. Here Comes the Sun isn't a cancer story-it's a love story.

The Star Side of Bird Hill

A Novel *Penguin*

Two sisters are suddenly sent from their home in Brooklyn to Barbados to live with their grandmother, in Naomi Jackson’s stunning debut novel This lyrical novel of community, betrayal, and love centers on an unforgettable matriarchal family in Barbados. Two sisters, ages ten and sixteen, are exiled from Brooklyn to Bird Hill in Barbados after their mother can no longer care for them. The young Phaedra and her older sister, Dionne, live for the summer of 1989 with their grandmother Hyacinth, a midwife and practitioner of the local spiritual practice of obeah. Dionne spends the summer in search of love, testing her grandmother’s limits, and wanting to go home. Phaedra explores Bird Hill, where her family has lived for generations, accompanies her grandmother in her role as a midwife, and investigates their mother’s mysterious life. This tautly paced coming-of-age story builds to a crisis when the father they barely know comes to Bird Hill to reclaim his daughters, and both Phaedra and Dionne must choose between the Brooklyn they once knew and loved or the Barbados of their family. Naomi Jackson’s Barbados and her characters are singular, especially the wise Hyacinth and the heartbreaking young Phaedra, who is coming into her own as a young woman amid the tumult of her family. Praise for The Star Side of Bird Hill: “Once in a while, you’ll stumble onto a book like this, one so poetic in its descriptions and so alive with lovable, frustrating, painfully real characters, that your emotional response to it becomes almost physical. . . . The dual coming-of-age story alone could melt the sternest of hearts, but Jackson’s exquisite prose is a marvel too. . . . A gem of a book.” —Entertainment Weekly (A)

Here Comes the Sun *Allen & Unwin*

Jeremy Oxley was diagnosed with schizophrenia aged 22, at the height of his fame as singer of the popular band Sunnyboys. Terrified and in denial, he tried to hide his diagnosis from family, band mates and friends, who attributed his erratic and sometimes terrifying behaviour to drug and alcohol abuse. Following harrowing experiences with the woeful mental health services of the day, Jeremy took himself off his prescription drugs and self-medicated with alcohol, gradually alienating friends and family alike till he became a hermit living in a small town in New South Wales, shut off from any kind of life or support. A Sunnyboys fan, Mary Griffiths was a nurse who had been widowed for five years with young twin boys. After being shocked to discover how Jeremy was living, she and her sons determined to find him and help him. At their first meeting, Mary was able to see through Jeremy's illness and recognise signs of the sensitive, beautiful and frightened man within. Her boys instantly loved him and he in turn was immediately calm around them. Jeremy's willingness to get well under Mary's guidance was driven by a deep desire to have the things we all mostly take for granted: a loving family, security, and control of his health and life. Slowly, painfully, but together, Jeremy and Mary put everything into reclaiming his life and building a family. That struggle is told here for the first time by Mary and Jeremy, whose distinctive voices trace Jeremy's remarkable journey from darkness to the light, and from the depths of despair to hope and love. It will move and inspire all who read it.

In Their Lives

Great Writers on Great Beatles Songs *Penguin*

The perfect gift for any Beatles fan, In Their Lives is an anthology of essays from a chorus of twenty-nine luminaries singing the praises of their favorite Beatles songs. The Beatles’ influence—on their contemporaries, on our cultural consciousness, and on the music industry ever after—is difficult to overstate. We all have a favorite song from the band that made us want to fall in love, tune in, and follow our dreams. Arranged chronologically by the date of the song’s release, these essays highlight both the Beatles’ evolution as well as the span of generations their music affected. Whether they are Beatlemaniacs who grew up listening to the iconic albums on vinyl or new fans who stream their favorite songs on their phones, all of the contributors explore that poignant intersection between Beatles history and personal history. With contributions from twenty-nine authors and musicians—Roz Chast on “She Loves You,” Jane Smiley on “I Want to Hold Your Hand,” Rosanne Cash on “No Reply,” Gerald Early on “I’m a Loser,” Rick Moody on “The End,” Maria Popova on “Yellow Submarine,” David Duchovny on “Dear Prudence,” Chuck Klosterman on “Helter Skelter,” David Hajdu on “You Know My Name (Look Up the Number),” and more—the breadth of the band’s impact is clear. From musings on young love and family strife to explorations of racial boundaries and identity, these essays pay tribute to a band that ran the gamut of human experience in a way no musical group has done before or since. Timed for the fiftieth anniversary of the release of Sgt. Pepper’s Lonely Hearts Club Band, this anthology captures the full spectrum of reasons fans still love the Fab Four after all these years. “In Their Lives is full of pleasant surprises.”—New
