I've got a 2001 325i with the 5-speed manual transmission. Ever since the day I got it I've experienced a very uncomfortable shudder in the transmission when downshifting. It only happens when I downshift at low rpms without rev-matching with the throttle. It's most noticeable when I'm slowing down for a turn in local driving. Say I'm in third gear and gently slowing down to make a right turn ...

BMW E46 Differential Info - Bokchoys.com

Your manual transmission can take a heck of a beating over the years and it is one of the most neglected service areas on a car. The fluid assists in the lubrication and heat disputation of the transmission, and even though it is in a closed environment, the fluid can become old and contaminated. It should be checked for level and changed as per the vehicles service manual.
