Resource - Eduqas

In single resource theory (Wickens, 1992:366-374), cognitive mechanisms, including those used for memory and decision making, are viewed as a single, undifferentiated resource pool. Task performance is dependent on the amount of resources allocated to the task, and is sometimes defined more formally by means of a performance resource function, which gives the performance of a task as a function of the amount of resources allocated to

that task.
