JoF | Special Issue : Fungal Infections Complicating COVID-19

Fungal infections and, in particular, those caused by species of the *Candida* genus, are growing at an alarming rate and have high associated rates of mortality and morbidity. These infections, generally referred as candidiasis, range from common superficial rashes caused by an overgrowth of the yeasts in mucosal surfaces to life-threatening disseminated mycoses.

Special Issue "Molecular Diagnostics of Fungal Infections"

Apple cider vinegar (or ACV for short) is one natural remedy that I shout quite a lot about here at A.Vogel Talks Fungal Skin Infections, and that's for good reason. It's antibacterial and antifungal, so it's ideal for combating a fungal overgrowth, whether it's internally or externally.

10 natural remedies for fungal skin infections

Some fungal skin infections, like candida (yeast infections), usually come from an overgrowth of your own, previously harmless fungi. You can pick up fungi which might cause infection if you come

into contact with an infected person or animal. That's why people who play contact sports are more likely to get fungal skin infections.

Fungal skin infections | Health Information | Bupa UK

Fungal sinusitis is a broad term used to describe various situations when fungus might be involved in the cause or symptoms of nasal and sinus inflammation. Fungus is an entirely separate "kingdom" from plants and animals; they are plant-like but cannot create their own food like plants do.

Fungal Sinusitis - ENT Health

Fungal nail infections usually affect your toenails, but you can get them on your fingernails, too. Fungal nail infections usually start at the edge of the nail. They often then spread to the middle. The nail becomes discoloured and lifts off.

Fungal nail infection - NHS

Fungi spreading from athlete's foot (known as 'dermatophyte fungi') cause most fungal nail infections. Less often a nail infection is due to other types of fungi, usually yeasts (eg. Candida) and moulds which do not cause athlete's foot.

Fungal infections of the nails - British Skin Foundation

Some fungal infections can grow inside the body and need to be treated in hospital.

Antifungal medicines - NHS

An introduction to the causes of a fungal

skin infection Fungal spores are present almost everywhere – in the air you breathe, in the soil, on your pet's fur and even on your skin. These spores can be ingested through breathing or permeation of the skin, but some fungi are already naturally present in your body as yeasts.

The causes of a fungal skin infection

In the United States, one of the most common bloodstream infections in hospitalized patients is caused by a fungus called Candida. Candida normally lives in the gastrointestinal tract and on skin without causing any problems, but it can enter the bloodstream during a hospital stay and cause infection. Have you recently had a transplant?

Fungal Infections - Protect Your Health | Fungal Diseases ...

Fungal lung infections require medications that are usually prescribed and monitored by a lung specialist. If there is an underlying cause for a weakened immune system (like HIV, tuberculosis or immunosuppressant medications) then these will need to be looked at. Then, antifungal medicines can be given either by mouth or through a drip.
