Ping-Pong Diplomacy

Ivor Montagu and the Astonishing Story Behind the Game That Changed the World *Simon and Schuster*

It was one of the most significant developments of the post-war era: China finally abandoning its close relationship with the Soviet Union to begin detente with the USA. Astonishingly, the man who helped make it happen was a British aristocrat, Ivor Montagu, a Soviet spy who knew Stalin and dined with Trotsky. Even more remarkably, the means to this rapprochement was table tennis, a sport loved by both Chairman Mao and Montagu. For years, Montagu had lived a dual life, working to spread communism and also table tennis around the world. Surprisingly, the two strands of his career would come together in an event of global significance. Nicholas

Griffin weaves a compelling story to reveal the background to the famous occasion in 1971, when the USA's Glenn Cowan, a 19-year-old hippie, befriended China's world champion Zhuang Zedong, who was imprisoned during the Cultural Revolution. Within days, the Americans would be playing the Chinese in front of 18,000 fans in Beijing, with the whole world watching. It was the beginning of a thaw in Sino-US relations that forced the Soviets into a crippling arms race that acted as a catalyst to pressuring them into errors that would draw the Cold War to an end. Sometimes sport truly can have the biggest consequences.

Ping-Pong Diplomacy

The Secret History Behind the Game That Changed the World *Simon and Schuster*

Combining the insight of Franklin Foer's *How Soccer Explains the World* and the intrigue of Ben Affleck's *Argo*, *Ping Pong Diplomacy* traces the story of how an aristocratic British

spy used the game of table tennis to propel a Communist strategy that changed the shape of the world. THE SPRING OF 1971 heralded the greatest geopolitical realignment in a generation. After twenty-two years of antagonism, China and the United States suddenly moved toward a détente—achieved not by politicians but by Ping-Pong players. The Western press delighted in the absurdity of the moment and branded it “Ping-Pong Diplomacy.” But for the Chinese, Ping-Pong was always political, a strategic cog in Mao Zedong’s foreign policy. Nicholas Griffin proves that the organized game, from its first breath, was

tied to Communism thanks to its founder, Ivor Montagu, son of a wealthy English baron and spy for the Soviet Union. Ping-Pong Diplomacy traces a crucial intersection of sports and society. Griffin tells the strange and tragic story of how the game was manipulated at the highest levels; how the Chinese government helped cover up the death of 36 million peasants by holding the World Table Tennis Championships during the Great Famine; how championship players were driven to their deaths during the Cultural Revolution; and, finally, how the survivors were reconvened in 1971 and ordered to reach out to their American counterparts. Through a cast of eccentric

characters, from spies to hippies and Ping-Pong-obsessed generals to atom-bomb survivors, Griffin explores how a neglected sport was used to help realign the balance of worldwide power.

**Life of Miracles
Along the Yangtze
and Mississippi**
*University of Georgia
Press*

There are only two ways to live our life, according to Albert Einstein: one is as if nothing is a miracle; the other, as if everything is a miracle. *Life of Miracles along the Yangtze and Mississippi* is a book about how the impossible became possible--about things that happened in China and America to the people Wang Ping grew

up with, met, and befriended along her journeys between these two distant rivers. This is also a story about water, alive with spirits and energy, giving birth to all sentient beings. We are water. The river runs through us. Those who live in harmony with water can ride the current of the universe--the secret of Tao, reaching all the way to the sea of miracles, one story, one droplet, and one wave at a time. A miracle is a state of mind, a way of living: how we face hardship, pain, and tragedies, how we transform them into fuels for our journey and transcend them into joy and hope. This is a book about how ordinary people perform miracles every day; how we are

touched, touching, all the time, across oceans and continents, across time and space, through our stories.

Why Books Matter in a Distracted Time

Sasquatch Books

Reading is a revolutionary act, an act of engagement in a culture that wants us to disengage. In *The Lost Art of Reading*, David L. Ulin asks a number of timely questions - why is literature important? What does it offer, especially now? Blending commentary with memoir, Ulin addresses the importance of the simple act of reading in

an increasingly digital culture. Reading a book, flipping through hard pages, or shuffling them on screen - it doesn't matter. The key is the act of reading, and it's seriousness and depth. Ulin emphasizes the importance of reflection and pause allowed by stopping to read a book, and the accompanying focus required to let the mind run free in a world that is not one's own. Are we willing to risk our collective interest in contemplation, nuanced thinking, and empathy? Far from preaching to the choir, *The Lost Art of Reading* is a call to arms, or rather, to pages.

This seemingly harmless game also leads him into sticky situations in the CIA headquarters and the ganglands of Washington, D.C. Woven throughout his Ping-Pong epiphany are philosophical ruminations on Plato and Aristotle, metaphysicians and empiricists, Jung's dark shadow, Sun Tzu's war tactics, the I Ching, and much more. As Guido's journey takes him from Big Sur to a nail-biting showdown in China against a string of elite players, he finds that Ping-Pong can teach us a surprising amount about life.

Reviewed by Aaron Wilson, Houston Chronicle, Texans NFL reporter The Legend of Doc Ping is an apt description of his life's story and provides an outstanding peek behind the curtains of both the NFL and Doc's life. Well-done! Book Summary After witnessing the beheading of his Uncle, a very young Doc Ping and his family escaped from China on foot in fear for their lives. They left everything behind, including his father's position in the nationalist Chinese government and all of their possessions, and fled the country--first

to Bangkok, and then to Taiwan. When Doc was nine, his father secretly arranged for him to travel on a freighter with 15 other civilians to the USA to live with the woman who helped resuscitate him from drowning a few years prior. Instead of offering him a better life, the woman was abusive, and after leaving her home, Doc lived in four more foster homes before joining the US Marine Corps after high school. In the Marines, Doc played football in Japan before deploying to Vietnam to fight for his country. Following his time in the Corps, Doc earned a Master's degree, coached Little League baseball, worked as an assistant principal, became a master of Jishukan-Ryu Jujitsu, and founded his

own professional sports agency representing NFL players. As a result of the (highly) eventful life he's led, more than one of Doc's friends have referred to him as a "real life" Forrest Gump--and they might be right. Both overcame difficult childhoods, achieved athletic glory, fought for their country in Vietnam and shook JFK's hand. Both then went on to achieve great things in life, including finding love and having a family. The main difference here is that Forrest Gump is a work of fiction. Doc's stories, on the other hand, are actual accounts of his real life. This memoir contains some of the compelling stories from his remarkable journey.

'In those days we dedicated our whole lives to The Party. We put it first, before anything else, whether that was family, love, or even life itself. I will tell you a fact about the path my life has taken - to survive is victory!' This is the true account of the life of Lin Xiangbei, during a century of tumultuous changes in China. Lin was born in 1918 in Yunan, a small town in north-east

Sichuan Province. In 1938, under the influence of a remarkable figure later known as 'The Double Gun Woman', Lin became a committed Communist. He worked tirelessly as an underground agent, believing the ideals of Communism would bring a better, fairer society to the people of China. But in 1957 Lin was accused of being a 'Rightist', spent several years in and out of labour camps, and was almost broken by the experience. Then came the decade-long nightmare that was the Great Proletarian Cultural Revolution. And yet, through it all, Lin Xiangbei remains committed to the principles of Communism and is proud of his country today. His account

gives us not only a glimpse into the lives of ordinary people in twentieth-century China, but also an insight into the hardship, fear and insecurity of those years - and the comradeship, self-sacrifice and heroism of the people around him.

A True Story *Enchanted Lion Books*

Based on a real scientific event and inspired by a beloved real human in the author's life, this is a story about science and the poetry of existence; about time and chance, genetics

and gender, love and death, evolution and infinity -- concepts often too abstract for the human mind to fathom, often more accessible to the young imagination; concepts made fathomable in the concrete, finite life of one tiny, unusual creature dwelling in a pile of compost amid an English garden. Emerging from this singular life is a lyrical universal invitation not to mistake difference for defect and to welcome, across the accordion scales of time and space, diversity as the wellspring of the universe's beauty and resilience.
