How to Replace a Timing Belt | YourMechanic Advice

Your timing belt should be replaced every 50,000-70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and the timing belt keeps them from touching. This is why you'll have a major engine failure on your hands if the belt breaks or skips.
