Community-based participatory research A guide to ethical ...

Abstract and Keywords. The conduct of community-based participatory research (CBPR) is a recent innovation in research designs aimed at identifying effective public health interventions. CBPR aims to maximize participation of affected populations in all phases of the research to fulfill three purposes: it is (1) a method for developing innovative interventions, (2) an intervention itself intended to change the respective partners positively as a result of

their participation, and
(3) a means ...

Everyday ethics in community-based participatory research ...

CONCLUSIONS:
Growing use of CBPR raises two new ethical issues that deserve greater public attention: first, the problem of securing informed consent and demonstrating respect for community autonomy when the locus of research shifts from the individual to community level; and second, fair distribution of scarce public resources when

practical constraints make the most rigorous research designs for assessing the effects of community interventions virtually impossible.
