Social planning emphasizes the application of rational problem-solving techniques and data-driven approaches to

identify, determine, and help coordinate services for target populations.

Social Planning | Encyclopedia of Social Work

Definition: Social planning is a process to develop policies, plans, and programs for human services. Practitioners work in public or private settings; in functional areas such as health, housing, or welfare; and in territories ranging from neighborhood to nation. (Checkoway, 196) Apply: Social planning can be applied to community development work by providing a framework for the interactional role of social workers and community organizers in applying their knowledge and

expertise in ...

Community Development Theories: Social Planning

Social planning can be an effective means of community organization and development, and of policy change, if it's entered into in a spirit of partnership with the community. If, as either a policymaker or a community builder, you can make it a truly inclusive and participatory process, chances are that it will have long-lasting, positive results for both policymakers and the community.

Section 3. Social Planning and Policy Change

Social planning is a conscious interactional process combining

investigation, discussion, agreement and action in order to achieve those conditions, relationships and values that are regarded as desirable. In a sense, it is an intelligent direction of social change. Sociologist can work as a change agent.
