The premier review journal in biology, The Quarterly Review of

Biology has presented insightful historical, philosophical, and technical treatments of important biological topics since 1926. The QRB publishes outstanding review articles of generous length that are guided by an expansive, inclusive, and often humanistic understanding of biology.

The Quarterly Review of Biology | List of Issues

A review paper is a different beast altogether. Where research reports do include the expert literature, a Review paper looks at solely published reports to explain what is happening in an area of research as a whole. Review Articles make a different sort of contribution to science (McMillan, 2001, 3, emphasis added):
